# REPORT

ON THE

# WORKING OF THE DISPENSARIES, JAIL HOSPITALS, ON VACCINATION, AND ON THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1911.

---

## I.—Medical Institutions.

1. The report deals with six classes of institutions—

(*a*) The Agency Dispensaries.

(*b*) The State Hospitals and Dispensaries.

(*c*) Hospitals supported by Local Funds, *viz.*, the King Edward Hospital, Indore, the Goona Suddar Dispensary, and the Sirdarpur Victoria Hospital.

(*d*) The Cantonment Hospital at Mhow.

(*e*) The Mission Dispensaries.

(*f*) The Railway Dispensaries.

During the year the total number of dispensaries increased by seven; five new ones were opened, namely, one at Kaniadhana in Gwalior, three ungraded dispensaries in Indore at Warla, Kanjarda and Lawani, and one by the Canadian Presbyterian Mission at Maksi; and two are brought on the list for the first time, namely, the Malwa Bhil Corps Hospitals at Sirdarpur and Indore.

### *Structural Improvements or Defects.*

2. *Bhopal Agency.*—The Female Hospital at Narsingarh is nearing completion, and a new ward is under construction at Sehore. At the Lady Lansdowne Hospital, Bhopal, a new wing was completed containing operation and labour rooms and quarters for the House Surgeon, and the Lady Minto Nursing School with quarters for twelve pupils. At Raisen a new dispensary has been built.

*Bhopawar Agency.*—The new Charitable Dispensary at Manpur is nearing completion with accommodation for 30 in-patients, and a good operation room and staff quarters. At Kuksi a new dispensary has been built, which will fill the gap left by the closing of the Sirdarpur Victoria Hospital last year. Additions were made to the Jhabua Dispensary, and at Kachibaroda the dispensary has been moved into a new building.

*Indore Agency.*—During 1911, the Indore Darbar sanctioned the building of a Leper Asylum with accommodation for 40 patients, which is now almost finished.

Dr. Tambe, the State Surgeon, has been able to bring the subscriptions he has collected for the Rao Tuberculosis Sanatorium to Rs. 50,000: accommodation for 28 patients is now ready. The Darbar provided the site. The erection of a dispensary near the Sanatorium is contemplated. The institution will be of benefit to the State, as much in preventing the spread of tuberculosis as in treating those already suffering from the disease.

3. The total number of new patients treated during the year was 1,650,862 compared with 1,700,781 in 1910; the fall may be attributed to the occurrence of less malaria, the incidence of which fell by 10 per cent., and to the increase in plague, which invariably tends to keep ordinary patients away from dispensaries.

The in-patients numbered 23,908, a decrease of about 800 on the 1910 figures.

The number of operations performed was 60,176.

4. The prevailing diseases were malaria, disease of the eye, rheumatic affections and diseases of the digestive system. Syphilis accounted for 1,245 admissions and 18,393 out-patients, and tubercular affections for 607 in-patients and 4,477 out-patients approximately the same as in 1910.

5. Progress was made with the King Edward Memorial. The General Council was constituted corresponding to that governing the Daly College. The name of the Indore Charitable Dispensary and its attached Medical School was changed to the King Edward Hospital and Medical School. From the subscriptions an operating block, a tuberculosis ward and administrative rooms are being erected. The old Daly College building has been handed over for teaching purposes.

## II.—Personnel.

The following Commissioned Medical Officers were on duty attached to the various Agencies in Central India:—

| Names of | | Period on duty | |
|---|---|---|---|
| Appointments. | Incumbents. | From | To |
| Residency Surgeon, Indore, and Administrative Medical Officer in Central India. | Lieutenant-Colonel J. R. Roberts, C.I.E., M.B., I.M.S. | 1st January . | 31st December. |
| Residency Surgeon at Gwalior . | Major R. W. Knox, I.M.S. | 1st January . | 31st December. |
| Agency Surgeon in Bhopal, Sehore. | Major P. B. Haig, I.M.S. | 1st January . and 21st December | 15th November and 31st December. |
| | Major E. H. Sharman, I.M.S., Medical Officer, 99th Deccan Infantry at Sehore, in addition to his own duties. | 16th November | 20th December. |
| Agency Surgeon in Bundelkhand, Nowgong. | Major J. H. Hugo, I.M.S. | 1st January . and 8th September | 6th August and 31st December. |
| | Captain T. Crawford Boyd, I.M.S., Medical Officer, 5th Light Infantry at Nowgong, in addition to his own duties. | 7th August . | 7th September. |
| Agency Surgeon in Baghelkhand, Sutna, E. I. Ry. | Lieutenant-Colonel H. E. Drake-Brockman, I.M.S. | 1st January . | 1st April. |
| | Major F. D. S. Fayrer, I.M.S. | 7th April . | 31st December. |
| Agency Surgeon in Bhopawar, Sirdarpore. | Captain J. R. J. Tyrrell, I.M.S. | 1st January . | 31st December. |

There are 246 qualified medical men in Central India serving a population of 9,356,980. They are shown as follows :—

| | |
|---|---|
| Agency Surgeons | 6 |
| State Surgeons | 8 |
| Assistant Surgeons | 24 |
| Lady Doctors | 8 |
| Mission Doctors | 2 |
| Sub-Assistant Surgeons | 182 |
| Private Practitioners— | |
| with University Qualifications | 5 |
| Sub-Assistant Surgeons | 11 |
| TOTAL | 246 |

in addition there are 60 Native Doctors and Compounders in charge of dispensaries.

## III.—FINANCIAL.

The States of Central India spent Rs. 4,40,598 on their Medical Departments and the Government of India Rs. 80,665; which sum includes the pay of six Agency Surgeons and the upkeep of the six Agency Dispensaries and grants given.

## IV.—SANITATION AND VITAL STATISTICS.

1. The Indore City water supply project referred to in last year's report is being proceeded with.

2. Vital statistics showing the number of births and deaths are returned from all the States in the Agency, but their accuracy is open to question. The total births returned are 120,557 giving a rate of 12·77 per mille; the deaths numbered 105,322, giving a rate of 11·25 per mille.

## V.—VACCINATION.

The number of primary vaccinations done during the year was 231,803, approximately the same as in the preceding year.

The number of vaccinators is 213, who as pointed out in last year's report are insufficient to fully protect the population from small-pox.

Lymph is made at Manpur and for their own use by the Indore and Gwalior Darbars, other States obtain their supply from Naini Tal.

No returns are made of attacks and of deaths from small-pox.

## VI.—EPIDEMICS.

1. *Cholera.*—The following table shows the number of deaths from cholera. Of the total of 1,043 all but a hundred occurred in Baghelkhand

where an epidemic commenced in July, and had not disappeared until December. Bhopal, Bundelkhand and Bhopawar showed a few cases.

*Statement of deaths from cholera during 1911.*

| Months. | Bhopal. | Bundelkhand. | Baghelkhand. | Bhopawar. | Total. |
|---|---|---|---|---|---|
| January | ... | ... | ... | ... | ... |
| February | ... | 5 | ... | ... | 5 |
| March | ... | ... | ... | ... | ... |
| April | ... | ... | ... | ... | ... |
| May | ... | ... | ... | ... | ... |
| June | ... | 3 | ... | ... | 3 |
| July | ... | ... | 444 | ... | 444 |
| August | 2 | 15 | 267 | ... | 284 |
| September | 11 | 13 | 150 | 19 | 193 |
| October | 10 | ... | 50 | ... | 60 |
| November | 21 | ... | 30 | ... | 51 |
| December | 1 | ... | 2 | ... | 3 |
| TOTAL | 45 | 30 | 943 | 19 | 1,043 |

2. *Plague.*—The incidence of plague showed a continuance of the increase noted in 1910; nearly three times as many deaths occurred as in the previous year, the total reaching 16,129. Gwalior, Bhopal and Indore were badly infected and Malwa, Baghelkhand and Bhopawar less so; Bundelkhand only had two cases.

The disease practically disappeared during the hot weather and commenced again during the rains reaching its highest point in October and then again declining.

*Statement showing the number of deaths from plague during 1911.*

| Months. | Agencies. | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | Gwalior. | Baghelkhand. | Bundelkhand. | Bhopal. | Malwa. | Bhopawar. | Indore. | Total. |
| Population | 3,090,798 | 1,772,574 | 1,375,317 | 1,050,735 | 389,741 | 698,455 | 979,360 | 9,856,980 |
| January | 1,584 | 21 | ... | 41 | 338 | 104 | 754 | 2,842 |
| February | 1,145 | 14 | ... | 98 | 224 | 66 | 562 | 2,109 |
| March | 1,156 | 32 | ... | 253 | 185 | 53 | 448 | 2,127 |
| April | 481 | 54 | ... | 101 | 96 | 13 | 95 | 840 |

| October | 348 | 32 | ... | 2,683 | 85 | 7 | 358 | 3,513 |
| November | 33 | 107 | ... | 1,076 | 12 | 32 | 466 | 2,029 |
| December | 390 | 98 | ... | 346 | 23 | 31 | 523 | 1,411 |
| Total | 5,669 | 389 | 2 | 5,007 | 1,393 | 320 | 3,344 | 16,129 |
| Ratio of deaths from plague per 1,000 of population. | 1·83 | ·21 | ... | 4·76 | 3·58 | ·45 | 3·41 | 14·24 |

## VII.—Famine.

There was no famine during the year: the rainfall was much below the average, but was well distributed as to time and area, so that the crops did not suffer to any great extent.

## VIII.—Lunatics and Lepers.

1. *Lunatics.*—A small asylum exists in Indore city with accommodation for eight; there were 14 admissions during the year. As was pointed out in last year's report a small Central Lunatic Asylum is required for Central India in which patients amongst British subjects and from the Native States could be treated.

2. *Lepers.*—There are leper asylums at Sehore, Ujjain and Dhar: a total of 1,354 cases are shown in the returns; the average number of inmates in the three institutions was as follows:—33·91, 28·1 and 20. They are maintained

by the States in whose territories they are situated, except that at Dhar which belongs to the Canadian Presbyterian Mission.

## IX.—Jails.

The number of jails in the Province remains 45; during the year two in Indore State were closed, namely, at Rampura and Bhanpura, and one at Garoth was opened. Figures for the Orchha jail are not available; it has therefore not been included in the returns. The Manpur and Bagli jails are included for the first time.

The average population and the death rate for the larger jails are as follows:—

| | Average population. | Death rate per thousand. |
|---|---|---|
| 1. Central India Agency Jail (British) | 172·95 | 11·56 |
| 2. Nowgong Jail (British) | 53·34 | *nil* |
| 3. Indore State Central Jail | 326 | 36 |
| 4. Lashkar Central Jail (Gwalior) | 586·8 | 32·3 |
| 5. Malwa Central Jail (Gwalior) | 187 | 16 |
| 6. Bhopal State Jail | 351·82 | 88·66 |
| 7. Rewah State Jail | 254·5 | 110·01 |

The Indore State Jail has been much healthier than last year when the death rate was 66·26: Bhopal and Rewah show extreme unhealthiness.

## X.—Victoria Memorial Scholarship Fund.

Classes during the year were maintained at Indore, Gwalior and Bhopal; the number of pupils were:—

| | |
|---|---|
| Indore | 17 |
| Gwalior | 24 |
| Bhopal | 31 |

the expenditure incurred was as follows:—

| | Total. | | | Average per pupil. | | |
|---|---|---|---|---|---|---|
| | Rs. | a. | p. | Rs. | a. | p. |
| Indore | 1,768 | 0 | 0 | 104 | 0 | 0 |
| Gwalior | 2,461 | 1 | 8 | 102 | 8 | 9 |
| Bhopal | 446 | 0 | 0 | 14 | 6 | 2 |

## XI.—The King Edward Hospital Medical School.

The decision to devote the sums subscribed for a memorial to the late King-Emperor for the erection of new buildings for the Hospital, and to enlarge the Medical School, made this during the year a much more important institution and greatly added to its efficiency as a teaching centre.

Hitherto the school has trained Sub-Assistant Surgeons for the Central India States and a smaller number for Government. Last year it was arranged that the Rajputana States, instead of being supplied with medical subordinates belonging to the Government list, should train their own men who would gradually replace those lent by Government, and constitute their own State Medical Service; and we have undertaken to train all the men they require at Indore. The Rajputana authorities paid a sum of Rs. 35,000 for the erection of quarters for their students and other buildings, and the Darbars pay a sum of Rs. 250 per annum for each student, of which Rs. 120 goes to the student as a scholarship, Rs. 50 is expended in books and Rs. 80 is credited to the school funds.

The medical school building which was the old Daly College has been taken over and provides good lecture and class rooms and a library; it is now being fitted up.

The number of students on the books during the year was 172 showing an increase of 61 on the previous year. This included 61 new entries. Of the number 16 passed their final examinations, 2 left, 3 were dismissed and 151 remained on December 31st.

The school is maintained by students' fees and subscriptions from the following States which are all in Central India :—

| | Rs. |
|---|---|
| Indore | 2,400 |
| Gwalior | 2,040 |
| Bhopal | 1,800 |
| Rewah | 600 |
| Dhar | 200 |
| Barwani | 200 |
| Dewas (Senior Branch) | 200 |
| Dewas (Junior Branch) | 200 |
| Nagod | 200 |
| Panna | 200 |

The origin of the students is as follows :—

| | |
|---|---|
| Central Indian States | 28 |
| Rajputana States | 39 |
| Government | 6 |
| Private | 99 |
| TOTAL | 172 |

*for Central India.*

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1911.*
*Population of the province 9,356,980.*

| Class of dispensary. | Number open on 31st December. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State-Public . . | 6 | ... | ... | 6 | |
| I—B. (Native State) Public. | 188 | 4 (*a*) | ... | 192 | (*a*) 1. Kaniadhana in Gwalior Residency. |
| II.—State—Special . . | ... | ... | ... | ... | 3. Ungraded dispensaries in Indore State. Warla. Kaujarda. Lawani. |
| (*i*) Police . . . | ... | 2 (*b*) | ... | 2 | |
| (*ii*) Forests and Surveys | ... | ... | ... | ... | (*b*) 2. Malwa Bhil Corps Hospitals included this time. |
| (*iii*) Canals . . | ... | ... | ... | ... | |
| (*iv*) Others . . | ... | ... | ... | ... | |
| III.—Local fund . . | 3 | ... | ... | 3 | |
| IV.—Private aided . . | 1 | ... | ... | 1 | |
| V.—Private non-aided . | 5 | 1 (*c*) | ... | 6 | (*c*) 1. Canadian Presbyterian Mission dispensary at Makshi. |
| VI.—Railway . . . | 7 | ... | ... | 7 | |
| TOTAL . | 210 | 7 | ... | 217 | |

CLASSES I AND II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all Railway dispensaries whether maintained by State, railways or others.

NOTES.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

F. A. SMITH, *M.D., Major, I.M.S.,*
*Administrative Medical Officer in Central India.*

# REPORT

ON THE

# WORKING OF THE DISPENSARIES, JAIL HOSPITALS, ON VACCINATION, AND ON THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1912.

---

## I.—Medical Institutions.

1. The report deals with six classes of Institutions—

(*a*) The Agency Hospitals and Dispensaries.

(*b*) The State Hospitals and Dispensaries.

(*c*) The State Special Dispensaries.

(*d*) Local Fund Hospitals and Dispensaries.

(*e*) Mission Hospitals and Dispensaries.

(*f*) Railway Dispensaries.

During the year 1912 seven dispensaries were opened, namely, at Sundersi (Indore), Chachora (Gwalior), Jehangirabad (Bhopal), Kohaniya (Bundelkhand), Bori (Bhopawar), Kathiawara (Bhopawar), and a Mission (branch) Dispensary at Dhar. Three have been closed, namely, Dharod (Rutlam) owing to the illness of the Sub-Assistant Surgeon, Malwa Bhil Corps Hospital, Sirdarpore (Bhopawar), owing to the transfer of the Regimental Headquarters to Indore, and the Victoria Hospital, Sirdarpore (Bhopawar), owing to the transfer of the headquarters of the Agency to Manpur; the returns from the Cantonment Hospital, Mhow, have been excluded from this report as it is now a purely Military Institution.

### *Structural Improvements and Defects.*

2. *Bhopal Agency.*—The Vikram Female Hospital at Narsingarh has been completed and is now being equipped. One new ward has been built for the Agency Hospital at Sehore, and another to replace an old one is under course of construction. To furnish the former the Mahajans have contributed Rs. 1,000.

*Bhopawar Agency.*—The Agency Hospital at Manpur has been completed, and the whole cost has been met by voluntary contributions. His Excellency the Viceroy laid the foundation stone of the King Edward Memorial Hospital at Dhar in November 1912. The erection of a new Hospital at Barwani has been commenced.

*Indore Agency.*—The Tuberculosis Sanatorium at Rao is nearing completion and it will shortly be opened.

At the King Edward Hospital the Administrative block and the Tuberculosis ward were completed and occupied; and the new Operation room is nearly finished. These three buildings from the Central India Memorial to His Majesty the Late King.

## Patients Treated.

3. The total number of new patients treated during the year was 1,722,193 compared with 1,650,862 in 1911; and the in-patients numbered 25,066 showing an increase of 1,158 in the previous year.

The total number of operations performed was 64,572 against 60,176 last year.

The increase may be attributed to the practical disappearance of plague from the province after the month of April. Epidemics of plague tend to make the people shy of seeking dispensary treatment, whereas cholera epidemics, of which a serious one occurred in Central India in the year under report, seem to act in the opposite direction. The Malarial returns were practically the same as in the previous year.

4. The prevailing diseases were diseases of the eye (295,408), Malaria (242,425), Skin diseases (184,416), Ulcers (123,956), Rheumatic affection (51,678) and Digestive system disorders (267,336). Syphilis accounted for 1,132 admissions and 16,701 out-patients, a decrease of 113, and 1,692 respectively, in all probability due to the more effective treatment by Salvarson. Admissions for tuberculosis numbered 655 an increase of 48 and out-patients numbered 3,339 a decrease of 1,138.

## II.—Personnel.

The following Commissioned Medical Officers were on duty attached to the various Agencies in Central India.

| Name of :— | | Period on duty :— | |
|---|---|---|---|
| Appointments. | Incumbents. | From. | To. |
| Residency Surgeon, Indore, and Administrative Medical Officer in Central India. | Lieutenant-Colonel J. R. Roberts, C.I.E., M.B., F.C.R.S. I.M.S. | 1st January . | 10th April. |
| | Major F.A. Smith, M.D., I.M.S. | 11th April . | 31st December. |
| Residency Surgeon at Gwalior, Gwalior Residency. | Major R.W. Knox, M.B., I.M.S. | 1st January . | 8th April. |
| | Major W.M. Anderson, M.D., I.M.S. | 9th April . | 31st December. |
| Agency Surgeon in Bhopal, Sehore. | Lieutenant-Colonel P. B. Haig, M.B., I.M.S. | 1st January and 23rd October . | 25th September. 31st December. |
| | Captain R. I. Binning, I.M.S., Medical Officer, 99th Deccan Infantry, Sehore, in addition to his own duties. | 26th September | 22nd October. |
| Agency Surgeon in Bundelkhand, Nowgong. | Major J.H.Hugo, D.S.O., M.B., I.M.S., | 1st January . | 16th March. |
| | Major S. Hunt, M.B., I. M. S. | 17th March . | 31st December. |
| Agency Surgeon in Baghelkhand, Sutna, E. I. Ry. | Major F. D. S. Fayrer, M.A., I.M.S. | 1st January . | 31st December. |
| Agency Surgeon in Bhopawar, Manpur. | Captain J. R. J. Tyrrell, M.B., I.M.S. | 1st January . | 4th April. |
| | Major L.J.M. Deas, M.B., F.R.C.S. (E), I.M.S. | 5th April . | 31st December. |

There are 269 qualified medical men in Central India serving a population of 9,356,980. They are as follows:—

| | |
|---|---|
| Officers of the Indian Medical Service | 6 |
| State Surgeons | 9 |
| Assistant Surgeons | 23 |
| Lady Doctors | 5 |
| Mission Doctors (including 5 ladies) | 9 |
| Sub-Assistant Surgeons | 202 |
| Private practitioners— | |
| with Universiy qualifications | 3 |
| Sub-Assistant Surgeons | 12 |
| Total | 269 |

In addition there are 64 Native Doctors and Compounders in charge of dispensaries.

## III.—Financial.

The expenditure of the Central Indian States on their Medical Departments amounted to Rs. 4,73,359 and of the Government of India to Rs. 1,06,533 which includes the pay of six Officers of the Indian Medical Service, the upkeep of seven Residency and Agency Hospitals and Dispensaries and Rs. 14,000 from the Contract Grant to the King Edward Hospital, Indore.

## IV.—Sanitation and Vital Statistics.

1. The water supply for Indore City is nearing completion; and a drainage system is under consideration. A drainage scheme is being formulated for the Residency area, and the provision of an increased water supply.

2. The returns of births and deaths are unreliable, one State with a population of over a million records only 151 births and 274 deaths; they however afford a means of comparison from year to year. In 1912, 122,815 births were registered compared with 120,557 in 1911 giving a birth rate of 13·07 per mille. The deaths numbered 114,521 compared with 105,322 in 1911 giving a death rate of 12·24 per mille.

## V.—Vaccination.

The number of primary vaccinations was 261,481 compared with 231,803 in 1911, an increase of 29,678.

The number of vaccinators is 210, which is one to every 44,557 persons or one to every 582 children born; this number of vaccinators considering the large area that has to be traversed is not sufficient to maintain adequate protection against small-pox.

Lymph is manufactured at Indore, Gwalior and Manpur, and is supplied to the neighbouring States from the last named place at a small cost.

## VI.—Epidemics.

1. Cholera prevailed in Central India almost throughout the year, the epidemic assumed serious dimensions in May and gradually increased until in September when 4,349 deaths were registered, after that it rapidly declined. There was also a serious epidemic in the territories to the West and South-West of the Province and it was in the States in that area that the majority of cases occurred, namely, 4,782 in Indore, and 680 in Bhopawar. The total number of deaths was 9,080.

*Statement of deaths from Cholera in 1912.*

| Months. | Indore. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Bhopawar. | Malwa. | Total. | Remarks. |

| April | ... | ... | ... | ... | 26 | ... | ... | 26 | |
| May | ... | ... | 303 | 1 | ... | ... | ... | 304 | |
| June | 79 | ... | 416 | ... | ... | ... | ... | 495 | |
| July | 147 | 34 | 433 | 53 | ... | ... | 13 | 680 | |
| August | 1,265 | 329 | 153 | 158 | 200 | 382 | 220 | 2,707 | |
| September | 3,095 | 286 | 151 | 221 | 122 | 298 | 176 | 4,349 | |
| October | 194 | 180 | 98 | 3 | ... | ... | 9 | 484 | |
| November | 2 | ... | 16 | ... | ... | ... | ... | 18 | |
| December | ... | ... | 3 | ... | ... | ... | ... | 3 | |
| Total | 4,782 | 829 | 1,573 | 436 | 362 | 680 | 418 | 9,080 | |

2. *Plague.*—The epidemic of 1911 remained during the first four months of 1912 when 4,828 deaths out of a total for the year of 5,282 occurred. June, July and August were free. A slight recrudescence occurred in September reaching a climax in October and then quickly declined. The total deaths were less than a third of those recorded from this disease in 1911. Bhopal was the area worst affected with 2,745 deaths, then Gwalior with 1,148 and Indore with 677.

*Statement of deaths from Plague in 1912.*

| Months. | Indore. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Bhopawar. | Malwa. | Total. | Remarks. |
|---|---|---|---|---|---|---|---|---|---|
| January | 236 | 140 | 1,037 | ... | 187 | 32 | ... | 1,632 | |
| February | 279 | 284 | 887 | 1 | 215 | 11 | 5 | 1,682 | |
| March | 119 | 254 | 350 | 15 | 189 | 13 | ... | 940 | |
| April | 40 | 379 | 131 | ... | 21 | 3 | ... | 574 | |
| May | 3 | 59 | 124 | 6 | ... | ... | ... | 192 | |
| June | ... | ... | ... | ... | ... | ... | ... | ... | |
| July | ... | ... | ... | ... | ... | ... | ... | ... | |
| August | ... | ... | ... | ... | ... | ... | ... | ... | |
| September | ... | ... | 64 | ... | ... | ... | ... | 64 | |
| October | ... | ... | 138 | ... | ... | ... | ... | 138 | |
| November | ... | 10 | 11 | ... | 2 | ... | ... | 23 | |
| December | ... | 22 | 3 | ... | ... | 12 | ... | 37 | |
| Total | 677 | 1,148 | 2,745 | 22 | 614 | 71 | 5 | 5,282 | |

3. *Small-pox.*—A serious epidemic occurred in the later months of the year, 452 cases were treated in Dispensaries compared with 160 in 1911; but as this disease is not compulsorily notified these figures by no means represent the extent of the epidemic.

## VII.—Famine.

Owing to short rains in 1911 famine conditions prevailed in the Bhopawar Agency during the early months of 1912. Relief works were opened in Jhabua and Alirajpur. After the onset of the rains the condition rapidly improved and the relief works were closed. No scarcity was reported from other Agencies.

## VIII.—Lunatics and Lepers.

1. *Lunatics.*—The Indore City Asylum, the only institution of the kind in Central India, admitted 34 patients. A sum of Rs. 15,000 has been sanctioned by the Indore Durbar for the erection of a new asylum with improved accommodation for patients and staff. British subjects who require asylum treatment are sent to the Nagpur Asylum.

2. *Lepers.*—There are Leper Asylums at Sehore (Bhopal), Ujjain (Gwalior) and Dhar (Canadian Presbyterian Mission); the average number of inmates was 28,21·66, and 19 respectively.

## IX.—Jails.

Returns are included from 44 jails compared with 45 in 1911. Manpur and Bagli have been excluded as they are only lock-ups and the figures for Orchha Jail are included.

The average population and death rate in the larger jails are as follows:—

| | Average population. | Death rate per thousand. |
|---|---|---|
| Lashkar Central Jail (Gwalior) | 531 | 12·10 |
| Bhopal State Jail | 325·56 | 36·85 |
| Indore State Jail | 292·52 | 34·19 |
| Rewa State Jail | 204·44 | 83·15 |
| Malwa Central Jail (Gwalior) | 200 | 15 |
| Central India Agency Jail (British) | 165·63 | 30·19 |
| Nowgong Jail (British) | 46·59 | *Nil.* |

## X.—Victoria Memorial Scholarship Fund.

Under the auspices of this fund Dhais are trained at Indore, Gwalior and Bhopal.

The number of pupils and the expenditure were as follows:—

| | Pupils. | Total cost. | | | Cost per pupil. | | |
|---|---|---|---|---|---|---|---|
| | | Rs. | a. | p. | Rs. | a. | p. |
| Indore | 11 | 1,333 | 9 | 7 | 121 | 3 | 9 |
| Gwalior | 29 | 2,007 | 10 | 9 | 69 | 3 | 8 |
| Bhopal | 41 | 387 | 3 | 0 | 9 | 7 | 1 |

of the Indore pupils eleven passed and were granted the Certificate.

## XI.—The King Edward Hospital Medical School, Indore.

The school has made good progress under the conditions noted in last year's report. The teaching staff has been increased by two members, Mr. Chasker, M.R.C.S. (Eng.), L.R.C.P. (Lond.), Lecturer on Ophthalmic Diseases and Special and Minor Surgery; and Mr. Kamakaka, L.M. & S. (Bom.), Lecturer on Physiology.

On January 1st, 1912, there were 151 students and during the year 23 were admitted. Of the total 174, eleven passed the final, ten left, one died, and three were dismissed, leaving 149 at the end of the year.

The school is maintained by fees from the Rajputana and private students, and annual subscriptions from nearly all the States in Central India.

The origin of the students at present at the school is as follows:—

| | |
|---|---|
| Central Indian States | 19 |
| Rajputana States | 48 |
| Government Scholars | 2 |
| Private students | 80 |

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1912.*
*Population of the province 9,356,980.*

| Class of dispensary. | Number open on 31st December. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State-Public . . | 6 | ... | ... | 6 | |
| I—B. (Native State) Public. | 192 | 6 (*a*) | 1 (*c*) | 197 | (*a*) 1 at Sundersi in Indore State. 1 at Chachora in Gwalior State, 1 at Jahangirabad in Bhopal State. 1 at Kohaniya in Behut Jagir in Bundelkhand. 1 at Bori in Bhopawar. 1 at Kathiawara separated from Rattanmal in Bhopawar. |
| II.—State—Special . . | ... | ... | ... | ... | |
| (*i*) Police . . . | 2 | ... | 1 (*d*) | 1 | |
| (*ii*) Forests and Surveys | ... | ... | ... | ... | |
| (*iii*) Canals . . | ... | ... | ... | ... | (*b*) 1 another branch mission dispensary at Dhar. |
| (*iv*) Others . . | ... | ... | ... | ... | 7 |
| III.—Local fund . . | 3 | ... | 1 (*e*) | 2 | (*c*) 1 at Dharod in Rutlam State. |
| IV.—Private aided . . | 1 | ... | 1 (*f*) | ... | (*d*) 1 Malwa Bhil Corps Hospitals at Sirdarpore. |
| V.—Private non-aided . | 6 | 1 (*b*) | ... | 7 | (*e*) 1 Victoria Hospital at Sirdarpore incorporated with the Agency Hospital, Manpur. |
| VI.—Railway . . . | 7 | ... | ... | 7 | (*f*) 1 Mhow Cantonment Hospital being a purely Military institution has been excluded from the returns. |
| Total . | 217 | 7 | 4 | 220 | |

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State, railways or others.

### Notes.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
   Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
   Dispensaries of a purely itinerant character should in no case be included in the statement.

# REPORT

ON THE

# MEDICAL INSTITUTIONS AND JAILS OF THE CENTRAL INDIA AGENCY FOR THE YEAR 1913.

## I.—Medical Institutions.

1. The report deals with the following Hospitals and Dispensaries :—

(*a*) State British Public, including the Agency Hospitals and Dispensaries.

(*b*) Native State Public, including Hospitals and Dispensaries belonging to the Central India Native States.

(*c*) State British Special, the Malwa Bhil Corps Hospital.

(*d*) Local Fund, the King Edward Hospital and the Goona Dispensary.

(*e*) Private Non-Aided, the Hospitals belonging to the Canadian Presbyterian Mission.

(*f*) Railway, belonging to the Great Indian Peninsula and Bombay, Baroda and Central India Railways.

The following changes have taken place during the year, seven dispensaries of (*b*) class have been opened, namely at Pathari (Bhopal Agency), Seondah (Datia), Maihar (Baghelkand Agency), Bagdi, Dotria, Khulghat (Southern States of Central India), Dharaud (Rutlam) ; and one at Nawabganj (Jaora) has been closed.

2. The more important structural improvements made during the year in the various Agencies are as follows :—

(*a*) *Bhopal Agency.*—One new ward at the Agency Hospital, Sehore, was opened by the Hon'ble the Agent to the Governor-General on 8th March, and another is nearing completion.

(*b*) *Bundelkhand Agency.*—An operation room and post-mortem room have been added to the Panna Hospital. At Semaria a new dispensary is almost completed, which will replace that at Mahodra. In Baoni State the Kadaura Hospital is completed and will shortly be occupied. A new dispensary at Kohannia in Bihat Jagir is in course of construction.

(*c*) *Southern States of Central India.*—A new hospital at Barwani is being built, and will soon be opened.

(*d*) *Indore.*—Structural improvements and additions on a large scale are contemplated at the King Edward Hospital and Medical School which include a new out-patient Department, a hostel with accommodation for one hundred students, and additional quarters for the staff. Towards the cost of this a sum of a lakh and a half of rupees has been subscribed by two well-known bankers of Indore, and this sum is to be supplemented by a special grant of one lakh of rupees from Government.

The Rao Sanotorium for consumption was completed and the institution is to be opened shortly by His Highness the Maharaja Holkar.

3. *Patients treated.*—The total number of new patients treated was 1,789,517 compared with 1,722,193 in 1912 : inpatients numbered 25,177, an increase of 111 on the previous year's figure.

Operations numbered 71,318 compared with 64,572 in 1912.

Beyond a slight progressive increase there are no striking changes in the figures for the two years, which points to the fact that as regards the incidence

of disease 1912 was a normal year without serious epidemics of mild diseases, such as malaria, which would have swelled the figures, nor of deadly diseases, such as plague, which tend to diminish the figures by engendering a feeling of suspicion of our methods of treatment.

*Prevailing Diseases.*—The principal diseases for which patients sought treatment during the year were—

| | |
|---|---|
| Eye diseases | 326,521 |
| Disorders of digestive system | 282,399 |
| Malaria | 249,654 |
| Skin diseases | 196,819 |
| Ulcers | 129,894 |
| Rheumatic affections | 57,417 |

these figures are much the same and in the same order as in 1912.

For syphilis there were 1,595 admissions, an increase of 463, and out-patients numbered 16,382, a decrease of 319. The alteration is probably due to the fact, that for salvarsan treatment, which is now generally adopted, patients are advised to come into hospital for a day or two.

The Tuberculosis figures for the past three years are as follows :—

| | 1911. | 1912. | 1913. |
|---|---|---|---|
| Admissions | 607 | 655 | 792 |
| Outpatients | 4,477 | 3,339 | 4,172 |

This disease is undoubtedly increasing and must continue to do so with increasing force each year as long as the elementary principles of sanitation are neglected.

## II.—Personnel.

The following Commissioned Officers were on duty in the various Agencies during the year :—

| Name of :— | | Period on duty :— | |
|---|---|---|---|
| Appointments. | Incumbents. | From | To |
| Residency Surgeon, Indore, and Administrative Medical Officer in Central India. | Major F. A. Smith, M.D., D.P.H. | 1st January | 31st December. |
| Residency Surgeon at Gwalior, Gwalior Residency. | Major W. M. Anderson, M.D. | 1st January<br>2nd July | 9th April.<br>31st December. |
| Agency Surgeon in Bhopal, Sehore. | Lieutenant-Colonel P. B. Haig, M.B. | 1st January | 23rd October. |
| | Lieutenant C. M. Plumptre. | 24th October | 12th November. |
| | Major J. W. Watson. | 13th November | 31st December. |
| Agency Surgeon in Bundelkhand, Nowgong. | Major S. Hunt, M.B. | 1st January | 7th April. |
| | Major J. R. J. Tyrrell, M.B. | 8th April | 5th November. |
| | Lieutenant-Colonel V.G. Drake-Brockman. | 6th November | 31st December. |
| Agency Surgeon in Baghelkhand, Sutna, E. I. Ry. | Major F. D. S. Fayrer, M.A. | 1st January | 24th September. |
| | Major J. H. Hugo, D.S.O., M.B. | 25th September | 31st December. |
| Agency Surgeon in Southern States of Central India. | Major L.J.M. Deas, M.B., F.R.C.S.E. | 1st January | 31st December. |

Serving the Central India population of nine and a third millions there are 268 qualified medical men, graded as follows:—

| | |
|---|---|
| Officers of the Indian Medical Service | 6 |
| Graduates of Indian Universities | 31 |
| Lady Doctors | 7 |
| Mission Doctors (including ladies) | 10 |
| Sub-Assistant Surgeons | 202 |
| Private practitioners— | |
| with University qualification | 4 |
| Sub-Assistant Surgeons | 8 |
| Total | 268 |

In addition to these there are 75 senior compounders who hold charge of small dispensaries.

## III.—Financial.

The expenditure of the Central Indian States on their medical departments amounted to Rs. 4,98,866 and of the Government of India to Rs. 1,34,057 which includes the pay of six officers of the Indian Medical Service, the up-keep of six Residency and Agency Hospitals and Dispensaries, and Rs. 14,000 from the Contract Grant to the King Edward Hospital, Indore. This expenditure has increased by Rs. 27,524 during the year—Rs. 19,083 on Hospitals and Rs. 8,441 on medical officers' pay.

## IV.—Sanitation—Vital Statistics.

1. In the Indore Residency area as a preliminary to other sanitary improvements for which Government last year made a special grant of two lakhs the water supply has been increased, and it is now sufficient for flushing the drains and sewers that are to be laid.

2. Each year on the compilation of vital statistics a slight improvement is apparent, but still except for comparison from year to year the figures are quite unreliable. The births and deaths registered during the last three years are as follows:—

| | Births. | | Deaths. | |
|---|---|---|---|---|
| Year. | No. | Rate per mille. | No. | Rate per mille. |
| 1911 | 120,557 | 12·27 | 105,322 | 11·25 |
| 1912 | 122,315 | 13·07 | 114,521 | 12·24 |
| 1913 | 119,861 | 12·80 | 96,853 | 10 35 |

## V.—Vaccination.

The number of primary vaccinations performed during 1913 was 266,868 or 5,382 more than in 1912. There are 213 vaccinators, that is one to every 43,929 persons or one to every 562 children born: taking into consideration the area to be traversed the number of vaccinators is inadequate to adequately protect the people from small-pox.

Lymph is manufactured at Indore, Gwalior, Sehore and Manpur, and from the last named place the medical departments of the neighbouring States are supplied at a small cost.

## VI.—Epidemics.

1. Cholera was much less prevalent than during the previous year, 2,823 deaths occurred compared with 9,080 in 1912. Cases occurred during nine

months in Bhopal with 636 deaths and during five months in Gwalior with 1,192 deaths. Indore was infected only during the last two months of the year when 105 deaths were recorded. The worst months were July and August when more than half of the total deaths occurred.

*Statement of deaths from Cholera in 1913.*

| Months. | Indore. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Southern States of Central India. | Malwa. | Total. | Remarks. |
|---|---|---|---|---|---|---|---|---|---|
| January | ... | ... | ... | ... | ... | ... | ... | ... | |
| February | ... | ... | ... | 13 | ... | ... | ... | 13 | |
| March | ... | ... | ... | 96 | 12 | ... | ... | 108 | |
| April | ... | ... | 13 | 78 | 137 | ... | ... | 228 | |
| May | ... | ... | 4 | 1 | 156 | ... | ... | 161 | |
| June | ... | ... | 15 | 20 | 126 | ... | ... | 161 | |
| July | ... | 571 | 193 | 25 | 27 | 2 | ... | 818 | |
| August | ... | 460 | 244 | 99 | 37 | 6 | ... | 846 | |
| September | ... | 67 | 100 | 50 | ... | 4 | ... | 221 | |
| October | ... | 70 | 58 | ... | ... | ... | ... | 128 | |
| November | 57 | 24 | 1 | ... | ... | ... | ... | 82 | |
| December | 48 | ... | 8 | ... | ... | 1 | ... | 57 | |
| Total | 105 | 1,192 | 636 | 382 | 495 | 13 | ... | 2,823 | |

2. *Plague.*—In 1911 in Central India 16,129 deaths occurred from plague, in 1912, 5,282 and 1913 was practically free from the disease with only 173 deaths: this is a remarkable and very welcome fall and I think, without being too optimistic it may be ascribed to the fact that the present epidemic after lasting nearly twenty years is at last waning. One hundred thirty-five of the deaths occurred in Bhopal where the infection remained for eight months, 24 in Gwalior in three months, and 14 in the Southern States also in three months. The majority of the cases occurred during the last five months. Indore, Bundelkhand, Baghelkhand, and Malwa were entirely free from infection throughout the year.

The following table gives the detailed figures:—

*Statement of deaths from Plague in 1913.*

| Months. | Indore. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Southern States of Central India. | Malwa. | Total. | Remarks. |
|---|---|---|---|---|---|---|---|---|---|
| January | ... | 5 | ... | ... | ... | 3 | ... | 8 | |
| February | ... | ... | 7 | ... | ... | 4 | ... | 11 | |
| March | ... | ... | 18 | ... | ... | 7 | ... | 25 | |
| April | ... | 1 | 13 | ... | ... | ... | ... | 14 | |
| May | ... | ... | 9 | ... | ... | ... | ... | 9 | |
| June | ... | ... | ... | ... | ... | ... | ... | ... | |

*Statement of deaths from Plague in 1913*—contd.

| Months. | Indore. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Southern States of Central India. | Malwa. | Total. | Remarks. |
|---|---|---|---|---|---|---|---|---|---|
| July | ... | ... | ... | ... | ... | ... | ... | ... | |
| August | ... | 18 | ... | ... | ... | ... | ... | 18 | |
| September | ... | ... | 22 | ... | ... | ... | ... | 22 | |
| October | ... | ... | 32 | ... | ... | ... | ... | 32 | |
| November | ... | ... | 10 | ... | ... | ... | ... | 10 | |
| December | ... | ... | 24 | ... | ... | ... | ... | 24 | |
| Total | ... | 24 | 135 | ... | ... | 14 | ... | 173 | |

*Small-pox.*—The prevalence of this disease in epidemic form continued and 570 cases compared with 452 in the previous year are reported as having been treated in the dispensaries. The Agency Surgeon in Bundelkhand reports 6,984 cases and 1,022 deaths in his Agency, which gives an indication of the extent of this disease.

## VII.—Famine.

The scarcity prevailing during the previous year in the Southern States disappeared. The rainfall in the eastern half of the Agency was considerably below the average and was unevenly distributed, giving cause for anxiety in the immediate future.

## VIII.—Lunatics and Lepers.

1. *Lunatics.*—The only Asylum in Central India is in Indore city where 33 cases were under treatment; of these, 13 recovered, 7 died and 9 remained. The building of the new Asylum for which a sum of Rs. 15,000 has been allotted is contemplated this year. Dangerous lunatics in other States are detained in jail and harmless ones remain at large. British subjects requiring Asylum treatment are tranferred to the Central Provinces. The question of providing a general lunatic asylum for Central India has often been discussed, but has not yet been decided on.

2. *Lepers.*—Leprosy is very prevalent in Central India. Three asylums are in existence. One at Sehore maintained by Her Highness the Begam of Bhopal under the Bhopal Dispensary Fund, where the average number of inmates was 29·25, one under the Gwalior State Medical Department at Ujjain, and the third maintained by the Canadian Presbyterian Mission at Dhar with an average of 24 patients.

## IX.—Jails.

Returns are received from 31 jails. In Gwalior State there are returns from three instead of six as heretofore; Sipri, Sabalgarh and Nimuch are omitted.

The average population and death rate in the larger jails are as follows:—

| | Average population. | Death rate per mille. |
|---|---|---|
| Lashkar Central Jail | 734 | 9·53 |
| Bhopal State Jail | 309·5 | 9·69 |
| Indore State Jail | 239 | 4·18 |
| Rewa State Jail | 220·79 | 13·58 |
| Malwa Central Jail (Bhairongarh) | 206 | 9·7 |
| Central India Agency Jail (Indore) | 149·12 | *Nil.* |
| Nowgong Jail | 68·42 | *Nil.* |

The general health in the jails shows a marked improvement on all previous years. The collective death rate is 8·3 per mille.

## X.—The Victoria Memorial Scholarship Fund.

Under the auspices of this fund Dhais are trained at Indore, Gwalior and Bhopal. For the pupil standing first in the annual examination at Indore, Rai Bahadur Seth Kastur Chand has presented a silver medal in the name of his wife.

The number of pupils and the expenditure were as follows:—

| | Pupils. | Total cost. | | | Cost per pupil. | | |
|---|---|---|---|---|---|---|---|
| | | Rs. | a. | p. | Rs. | a. | p. |
| Indore | 20 | 1,492 | 5 | 7 | 74 | 9 | 10 |
| Gwalior | 19 | 2,333 | 2 | 4 | 122 | 12 | 9 |
| Bhopal | 6 | 335 | 5 | 0 | 55 | 14 | 2 |

## XI.—The King Edward Hospital Medical School, Indore.

The staff remained the same as in the previous year.

At the beginning of the year there were 149 students, and 37 were admitted. Of this total of 186, nineteen passed the final examination, and six left leaving 161 at the end of the year.

The origin of the students is as follows:—

| | |
|---|---|
| Central Indian States | 24 |
| Rajputana States | 57 |
| Government Scholars | 2 |
| Private students | 78 |

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1913.*
*Population of the province 9,356,980.*

| Class of dispensary. | Number open on 31st December. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State-Public | 6 | ... | ... | 6 | |
| I—B. (Native State) Public. | 197 | 7 (*a*) | 1 (*b*) | 203 | (*a*) 1 Pathari in Bhopal. 1 Seondah in Datia in Bundelkhand. 1 Maihar in Baghelkhand. 3 Bagdi, Dotria and Khulgbat in Southern States of Central India. 1 Dharaud in Rutlam State. (*b*) Nawabgunj in Jaora State. |
| II.—State—Special | ... | ... | ... | ... | |
| (*i*) Police | 1 | ... | ... | 1 | |
| (*ii*) Forests and Surveys | ... | ... | ... | ... | |
| (*iii*) Canals | ... | ... | ... | ... | |
| (*iv*) Others | ... | ... | ... | ... | |
| III.—Local fund | 2 | ... | ... | 2 | |
| IV.—Private aided | ... | ... | ... | ... | |
| V.—Private non-aided | 7 | ... | ... | 7 | |
| VI.—Railway | 7 | ... | ... | 7 | |
| Total | 220 | 7 | 1 | 226 | |

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State, railways or others.

---

Notes.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

# REPORT

ON THE

## WORKING OF THE HOSPITALS, DISPENSARIES, JAIL HOSPITALS, ON VACCINATION AND ON THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1914.

### I.—Medical Institutions.

1. The report deals with the following Hospitals and Dispensaries :—

| | |
|---|---|
| (*a*) State (British) Public, including the Agency Hospitals and Dispensaries. | 6 |
| (*b*) State (Native State) Public, including Hospitals and Dispensaries belonging to the Durbars in Central India. | 212 |
| (*c*) State (British) Special, the Malwa Bhil Corps Hospital | 1 |
| (*d*) Local Fund, the King Edward Hospital, Indore, and the Sudder Dispensary, Goona. | 2 |
| (*e*) Private Non-Aided, the Hospitals and Dispensaries belonging to the Canadian Presbyterian Mission. | 7 |
| (*f*) Railway, belonging to the Great Indian Peninsula Railway and the Bombay, Baroda and Central India Railway. | 7 |

Nine new Dispensaries have been opened at the following places :—

*Indore State.—Bramhangaon, Machalpur* and *Zarda.*

*Bhopal Agency.*—The Vikram Female Hospital at *Narsingarh : Talen* in Rajgarh; and *Mohomedgarh*, the medical arrangements for which State were previously centered at Basoda.

*Dewas* (*Junior Branch*).—The Medical Department of this State has been separated from that of the Senior Branch and a new Hospital has been opened at the capital and Dispensaries at *Gadguchia* and *Sarangpur.*

2. The more important structural improvements made during the past year in the various Agencies are as follows :—

(*a*) *Gwalior.*—A new administrative block and operation-room have been built and occupied at the Residency Hospital.

(*b*) *Indore.*—For the completion of the additional accommodation required at the King Edward Hospital and Medical School, a sum of approximately Rs. 3,00,000 is now available. The matter have been under the careful consideration of a Sub-Committee appointed for the purpose and revised plans and estimates have been prepared by Mr. Triggs, Architect, Rutlam. In Indore State a new Dispensary has been built at Kathaphod, and one at Sanawad is nearly completed. The Tukoji Rao Hospital has been improved by the addition of a room for X-Ray work and the operation room has been extended. The Tuberculosis Sanatorium at Rao was formally opened by His Highness the Maharaja Holkar in January and now forms part of the State Medical Department.

(*c*) *Bhopal Agency.*—At Narsingarh the building of the Vikram Female Hospital has been completed.

A new Hospital is under course of construction at Kurwai, and will be completed next year.

(*d*) *Southern States Agency.*—New buildings for the Dispensaries at Kuksi, Dharampuri, Badnawar and Kanwan have been provided in the Dhar State: and at the Capital the building of a new Hospital is being arranged for.

At Barwani progress is being made with the erection of a good Hospital: the administrative block including the out-patients department has been completed and the wards are being built

At Manpur a new mortuary has been provided.

(*e*) *Bundelkhand Agency.*—The general ward and operation room at the Panna Hospital, and the new Dispensary at Kohania in Bihat Jagir have been completed.

Plans are being prepared for a good modern Hospital which the Durbar propose building at Datia.

(*f*) *Malwa Agency.*—At Dewas a new Hospital has been provided by the Junior Branch.

At Jaora additional accommodation has been provided for in-patients.

At Rutlam and at Sitamau the building of new hospitals is contemplated.

3. *Patients treated.*—The total number of patients treated was 1,882,629 an increase of 93,112 on the previous year. In-patients numbered 27,951 compared with 25,177 in 1913.

The number of operations performed was 69,465 compared with 71,318 last year, and 64,572 in 1912.

The large increase in the number of patients is generally distributed amongst all classes of disease, and is not due to epidemics, as only the small proportion of plague cases treated in Hospitals are included in these figures; it seems to indicate a more general willingness on the part of the people to come in for treatment.

4. *Prevailing diseases.*—These are the same as during the past two years: under the six principle heads the numbers are as follows:—

| | |
|---|---|
| Eye diseases | 337,117 |
| Disorders of digestive system | 307,979 |
| Malaria | 261,710 |
| Skin diseases | 197,523 |
| Ulcers | 134,999 |
| Rheumatic affections | 58,937 |

For syphilis the admissions numbered 1,169 a decrease of 426, and the out-patients increased by 810 to 17,192.

The tuberculosis figures are 767 admissions, and 3,617 out-patients a slight decrease on those for the previous year—

| | 1912. | 1913. | 1914. |
|---|---|---|---|
| Admissions | 655 | 792 | 767 |
| Out-patients | 3,339 | 4,192 | 3,617 |

## II.—Personnel.

Major F. A. Smith was Administrative Medical Officer throughout the year. In the various Agencies the following Commissioned Medical Officers held charge, the frequent changes were due to the reversion of many officers to Military duty on account of the war:—

| Name of | | Period on duty | |
|---|---|---|---|
| Appointments. | Incumbents. | From | To |
| Residency Surgeon, Indore | Major F. A. Smith, M.D., | 1st January | 31st December. |

|---|---|---|---|
| Appointments. | Incumbents. | From | To |
| Agency Surgeon in Baghelkhand. | Major J. H. Hugo, D.S.O., M.B. | 1st January | 22nd September. |
| | Captain J. B. D. Hunter, M.B., F.R.C.S.E. | 3rd October | 28th October. |
| | Major S. Hunt, M.B. | 4th November | 31st December. |
| Agency Surgeon in Bhopal | Major J. W. Watson. | 1st January | 12th September. |
| | Lieutenant-Colonel P. B. Haig, M.B. | 13th September | 17th September. |
| | * Captain W. D. Keyworth, M.B. | 18th September | 25th September. |
| | Major C. B. McConaghy, M.B. | 26th September | 31st December. |
| Agency Surgeon in Bundelkhand. | Lieutenant-Colonel V.G. Drake-Brockman. | 1st January | 30th April. |
| | Major J. R. J. Tyrrell, M.B. | 1st May | 10th September. |
| | Lieutenant-Colonel J. N. McLeod, C.I.E., M.A., M.B., F.R.C.S.E. | 11th September | 16th September. |
| | * Major P. C. Douglass, R.A.M.C. | 17th September | 31st December. |
| Agency Surgeon, Southern States of Central India, Manpur. | Major L. J. M. Deas, M.B., F.R.C.S.E. | 1st January | 24th August. |
| | Major G. D. Franklin, B.A., M.B., B.C., M.R.C.S. | 5th September | 22nd November. |
| | Major F. A. Smith, M.D. | 25th November | 31st December. |

* Military Medical Officers holding collateral charge.

There are 280 qualified medical men in Central India with qualifications as follows:—

| | |
|---|---|
| Indian Medical Service Officers | 6 |
| Graduates of Indian Universities | 37 |
| Lady Doctors | 6 |
| Mission Doctors (including ladies) | 10 |
| Sub-Assistant Surgeons | 204 |
| Private practitioners— | |
| with University qualification | 6 |
| Sub-Assistant Surgeons | 11 |
| Total | 280 |

In addition there are 83 senior compounders in charge of small dispensaries in the districts.

## III.—Financial.

The expenditure of the Durbars on their Medical Departments amounted to Rs. 5,28,708 and the Imperial expenditure to Rs. 1,06,598 including the pay of Agency Surgeons, the cost of upkeep of Agency Hospitals and Dispensaries, and a grant of Rs. 14,000 to the King Edward Hospital, Indore.

## IV.—Sanitation—Vital Statistics.

The question of improving the sanitation of the Indore Residency Bazars, for which Government have given a grant of 2 lakhs of rupees, is still under consideration.

The vital statistics that are prepared are not very reliable, but the figures returned are useful in affording comparison from year to year.

The births and deaths registered for the past three years are as follows :—

| | Births. | | Deaths. | |
|---|---|---|---|---|
| Years. | No. | Rate per 1,000 of population. | No. | Rate per 1,000 of population. |
| 1912 . . . . | 122,315 | 13·07 | 114,521 | 12·24 |
| 1913 . . . . | 119,861 | 12·80 | 96,853 | 10·35 |
| 1914 . . . . | 139,375 | 14·89 | 106,822 | 11·41 |

Thus showing an increased birth rate of 2·09 per mille and deaths an increased rate of 1·06 per mille: the latter increase is due to there having occurred during the year 9,364 more deaths from cholera and plague than in the previous year, which gives a rate of just over 1 per mille in the population of 9,256,980.

## V.—Vaccination.

The number of primary vaccinations performed was 258,829 compared with 266,868 in the previous year. There are 226 vaccinators, that is one to every 41,403 persons, or one to every 616 children born. The number of vaccinators, although showing an increase of 13 on those previously employed, is insufficient to afford adequate protection from small-pox: and much of their work is done in a careless and irresponsible fashion.

The question of training vaccinators is one that should be considered, and their pay and prospects might be improved, considering the extent to which they are responsible for the health of the community. Owing to the distances to be covered only a small fraction of their work can be inspected.

Lymph is prepared at Indore, Gwalior, Sehore, Sutna and Manpur, and from the last named place the various neighbouring States and Agencies are supplied at a small cost.

## VI.—Epidemics.

1. *Cholera.*—There was a considerable epidemic of cholera from which 10,075 deaths occurred compared with 2,823 in 1913, and 9,080 in 1912. Gwalior and Bundelkhand were the worst affected areas; and the disease as is usually the case was most prevalent in the months of July, August and September. The Southern States Agency remained free from infection. The following table gives the detailed figures :—

*Statement of deaths from Cholera in 1914.*

| Months. | Indore. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Southern States of Central India. | Malwa. | Total. | Remarks. |
|---|---|---|---|---|---|---|---|---|---|
| January . | 3 | ... | ... | ... | 1 | ... | ... | 4 | |
| February . | ... | ... | ... | ... | 6 | ... | ... | 6 | |
| March . | 11 | ... | ... | 3 | 10 | ... | ... | 24 | |
| April . . | 9 | ... | 48 | 7 | 25 | ... | ... | 89 | |
| May . . | 51 | 102 | 3 | 122 | 86 | ... | 23 | 387 | |

*Statement of deaths from Cholera in 1914*—contd.

| Months. | Indore. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Southern States of Central India. | Malwa. | Total. | Remarks. |
|---|---|---|---|---|---|---|---|---|---|
| June . . | 31 | 1,039 | 118 | 173 | 79 | ... | 34 | 1,474 | |
| July . . | 35 | 974 | 190 | 241 | 198 | ... | ... | 1,638 | |
| August . | 53 | 1,441 | 144 | 597 | 233 | ... | ... | 2,468 | |
| September . | 23 | 433 | 216 | 1,571 | 100 | ... | ... | 2,343 | |
| October . | ... | 190 | 8 | 1,110 | 128 | ... | ... | 1,466 | |
| November . | ... | 23 | 2 | 54 | 90 | ... | ... | 169 | |
| December . | ... | 3 | ... | ... | 4 | ... | ... | 7 | |
| Total . | 216 | 4,205 | 759 | 3,878 | 960 | ... | 57 | 10,075 | |

2. *Plague.*—The satisfactory condition of Central India with regard to plague in 1913, when only 173 deaths were reported was not maintained: a serious recrudescense unfortunately occurred in Bhopal where there were 2,236 deaths out of a total of 2,285 from the whole Province. The infection remained in this State from the previous year, it disappeared in May, and June and July were free, but towards the end of the rains it lit up again reaching a climax in October. The 47 cases in Gwalior and two in Indore were traced to Bhopal.

*Statement of deaths from Plague in 1914.*

| Months. | Indore. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Southern States of Central India. | Malwa. | Total. | Remarks. |
|---|---|---|---|---|---|---|---|---|---|
| January . | ... | 12 | 42 | ... | ... | ... | ... | 54 | |
| February . | ... | ... | 54 | ... | ... | ... | ... | 54 | |
| March . | ... | ... | 44 | ... | ... | ... | ... | 44 | |
| April . . | ... | ... | 52 | ... | ... | ... | ... | 52 | |
| May . . | ... | ... | 5 | ... | ... | ... | ... | 5 | |
| June . . | ... | ... | ... | ... | ... | ... | ... | ... | |
| July . . | ... | ... | ... | ... | ... | ... | ... | ... | |
| August . | ... | ... | 26 | ... | ... | ... | ... | 26 | |
| September . | 2 | ... | 570 | ... | ... | ... | ... | 572 | |
| October . | ... | ... | 857 | ... | ... | ... | ... | 857 | |
| November . | ... | 8 | 257 | ... | ... | ... | ... | 265 | |
| December . | ... | 27 | 329 | ... | ... | ... | ... | 356 | |
| Total . | 2 | 47 | 2,236 | ... | ... | ... | ... | 2,286 | |

3. *Small-pox.*—The number of cases treated in dispensaries was 281 compared with 570 in the previous year.

The Agency Surgeon in Bundelkhand reports 679 cases and 109 deaths, less than one-tenth of his figures for the previous year. In Baghelkhand 1,282 cases and 186 deaths were recorded. The disease was therefore far less prevalent than in 1913.

## VII.—Famine.

The rainfall was well distributed as to time and area, there was no famine during the year.

## VIII.—Lunatics and Lepers.

1. *Lunatics.*—In Central India there is only one small asylum in the Indore city where 30 cases were treated, of which 13 recovered, 5 died and 12 remained. The erection of a new asylum is under consideration.

In other States dangerous lunatics are detained in jail and harmless ones remain at large.

British subjects requiring asylum treatment are transferred to the Asylum at Nagpur.

The question of providing an asylum for the treatment of these patients at Indore has been discussed.

2. *Lepers.*—There are three leper asylums in Central India, one at Sehore maintained by the Bhopal Durbar, under the Dispensary Fund, one at Ujjain maintained by the Gwalior Durbar, and one at Dhar belonging to the Canadian Presbyterian Mission. The average number of inmates and their cost of maintenance are as follows:—

| | Average number of inmates. | Total expenditure. | | | Average cost per leper. | | |
|---|---|---|---|---|---|---|---|
| | | Rs. | A. | P. | Rs. | A. | P. |
| Bhopal . . . . | 30·33 | 2,885 | 7 | 10 | 95 | 2 | 1 |
| Gwalior . . . . | 21·7 | 2,511 | 4 | 4 | 115 | 3 | 10 |
| Dhar . . . . | 28 | 1,886 | 12 | 0 | 67 | 6 | 2 |
| Total . | 80·03 | 7,283 | 8 | 2 | 191 | 1 | 6 |

## IX.—Jails.

Returns are received from 31 jails, the same number as last year.

The following table shows the average population, the number of deaths and the death rate in the seven large jails:—

| | Average population. | Number of deaths. | Rate per 1,000. |
|---|---|---|---|
| Lashkar Jail . . . . . | 872·9 | 15 | 17·18 |
| Indore State Jail . . . . | 329·16 | 7 | 21·26 |
| Rewah State Jail . . . . | 250·41 | 27 | 107·82 |
| Bhopal State Jail . . . . | 244·84 | 2 | 8·17 |
| Central India Agency (Government) Jail | 149·93 | 2 | 13·34 |
| Bhairongarh (Gwalior) Jail . . | 128· | ... | ... |
| Nowgong (Government) Jail . . | 69·69 | 1 | 14·34 |

The death rate per mille for the past three years is as follows:—

| | 1912. | 1913. | 1914. |
|---|---|---|---|
| Lashkar Central Jail (Gwalior) . | 12·10 | 9·53 | 17·18 |
| Bhopal State Jail . . . | 36·85 | 9·69 | 8·17 |
| Indore State Jail . . . | 34·19 | 4·18 | 21·26 |
| Rewah State Jail . . . | 83·15 | 13·58 | 107·82 |
| Bhairongarh Jail (Gwalior) . . | 15·0 | 9·7 | ... |
| Central India Agency Jail . . | 30·19 | ... | 13·34 |
| Nowgong Jail . . . . | ... | ... | 14·34 |
| Collective Total . | 30·58 | 8·3 | 26·46 |

The collective rate shows a marked increase on the previous year.

## X.—The Victoria Memorial Scholarship Fund.

Under the auspices of this Fund Dhais are trained at Indore, Gwalior and Bhopal where the number of pupils and the total expenditure are as follows:—

| | Pupils. | Total expenditure during the year. | | | Cost per pupil for one year. | | |
|---|---|---|---|---|---|---|---|
| | | Rs. | A. | P. | Rs. | A. | P. |
| Indore . . . . | 18 | 1,236 | 9 | 7 | 68 | 11 | 2 |
| Gwalior . . . . | 22 | 1,542 | 4 | 8 | 70 | 1 | 8 |
| Bhopal . . . . | 32 | 648 | 3 | 0 | 20 | 4 | 0 |
| Total . | 72 | 3,427 | 0 | 3 | 47 | 9 | 6 |

## XI.—The King Edward Hospital Medical School, Indore.

The number of students in the school on the 1st January 1914 was 162, during the year 25 passed their final examination, five left the School and 29 were newly admitted, leaving 161 at the end of 1914 as follows:—

| | |
|---|---|
| 4th year . . . . . | 46 |
| 3rd „ . . . . . | 35 |
| 2nd „ . . . . . | 51 |
| 1st „ . . . . . | 29 |
| Total . | 161 |

Their origin is as below:—

| | |
|---|---|
| Central India States Scholars . . . . . | 23 |
| Rajputana States Scholars . . . . . | 61 |
| Government Scholars . . . . . | 2 |
| Private Scholars . . . . . | 75 |
| Total . . | 161 |

F. A. SMITH, *Major, M.D., I.M.S.,*
*Administrative Medical Officer*
*in Central India.*

Indore, Central India;
*The 1st June 1915.*

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1914.*
*Population of the province 9,356,980.*

| Class of dispensary. | Number open on 31st December 1913. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State—Public . . | 6 | ... | ... | 6 | |
| II.—State—Special . . | 203 | *9 | ... | 212 | *1 Female Hospital, Narsingarh (Bhopal).<br>1 Talen in Rajgarh (Bhopal).<br>1 Mohamedgarh (Bhopal).<br>1 Brambangaon (Indore State).<br>1 Machalpore „<br>1 Zarda State. „<br>1 Dewas, J. B.<br>1 Sarangpore (Dewas, J. B.).<br>1 Gargoochya (Dewas, J. B.). |
| (*i*) Police . . . | 1 | ... | ... | 1 | |
| (*ii*) Forests and Surveys | ... | ... | ... | ... | |
| (*iii*) Canals . . | ... | ... | ... | ... | |
| (*iv*) Others . . | ... | ... | ... | ... | |
| III.—Local fund . . | 2 | ... | ... | 2 | |
| IV.—Private aided . . | ... | ... | ... | ... | |
| V.—Private non-aided . | 7 | ... | ... | 7 | |
| VI.—Railway . . . | 7 | ... | ... | 7 | |
| Total . | 226 | 9 | ... | 235 | |

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State railways or others.

---

Notes.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

*Statement No. V.—Showing particulars of Vaccination verified by Inspecting Officers during the year 1914-15.*

# ANNUAL REPORT

ON THE

## WORKING OF THE HOSPITALS, DISPENSARIES, JAIL HOSPITALS, ON VACCINATION AND ON THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1915.

### I.—Medical Institutions.

1. The report deals with the following Hospitals and Dispensaries :—

| | |
|---|---|
| (*a*) State (British) Public, including the Agency Hospitals and Dispensaries. | 6 |
| (*b*) State (Native State) Public, including Hospitals and Dispensaries belonging to the Durbars in Central India. | 214 |
| (*c*) State (British) Special, the Malwa Bhil Corps Hospital, Indore. | 1 |
| (*d*) Local Fund, the King Edward Hospital, Indore, and the Sudder Dispensary, Goona. | 2 |
| (*e*) Private Non-Aided, the Hospitals and Dispensaries belonging to the Canadian Presbyterian Mission. | 7 |
| (*f*) Railway, belonging to the Great Indian Peninsula Railway and the Bombay, Baroda and Central India Railway. | 7 |

New dispensaries were opened at the following places :—

| | |
|---|---|
| Gwalior State . . . . . | Gohad. |
| Sailana State . . . . . | Bilpank and Raoti. |

One dispensary at the water-works in the Indore State was closed.

2. The more important structural improvements made during the year in the various Agencies are enumerated below ; the list is smaller than usual on account of the war.

(*a*) *Indore State.*—A new dispensary building was constructed and occupied at Sanawad and one at Jirapur is under construction.

(*b*) Southern States of—

*Central India Agency.*—The building of the new King Edward Memorial Hospital at Dhar was commenced. At Barwani the dispensary and office have been transferred from the old to the new building which is called the King Edward Hospital. The erection of wards is being proceeded with.

In Alirajpur a kutcha ward has been added to the Bhabra dispensary.

3. *Patients treated.*—The total number of patients treated was 1,926,270, an increase of 43,641 on the previous year's figures.

The in-patients numbered 25,465 against 27,951, the decrease is mainly due to plague epidemics.

The number of operations performed was 75,890 compared with 71,318 last year.

4. *Prevailing diseases.*—These are the same as in previous years except that Malaria provides the largest number of patients, whereas last year the order was eye diseases, disorders of the digestive system and then Malaria.

The figures for 1915 are as follows:—

| | |
|---|---|
| Malaria | 319,888 |
| Eye diseases | 314,076 |
| Disorders of digestive system | 299,578 |
| Skin diseases | 2,00,565 |
| Ulcers | 134,908 |
| Rheumatic affections | 59,141 |

For syphilis the admissions were 1,007 and 15,926 out-patients were treated a slight decrease on last year's figures.

The tuberculosis figures are 414 admissions and 1,693 out-patients against 767 and 3,617 respectively last year.

## II.—Personnel.

Lieutenant-Colonel F. A. Smith, M.D., D.P H., I.M.S., was the Administrative Medical Officer in Central India throughout the year. The following commissioned Medical Officers held charge in the various Agencies:—

| Name of | | Period on duty | |
|---|---|---|---|
| Appointments. | Incumbent. | From | To |
| Residency Surgeon, Indore | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January | 31st December. |
| Residency Surgeon, Gwalior | Major F. D. S. Fayrer, M.A., I.M.S. | 1st January | 12th March. |
| Agency Surgeon in Bhopal | Major C. B. McConaghy, M.B., I.M.S. | 1st January | 31st December. |
| Agency Surgeon in Baghelkhand. | Major S. Hunt, M.B., I.M.S. | 1st January | 31st December. |
| Agency Surgeon in Bundelkhand. | Vacant. | | |
| Agency Surgeon in the Southern States of Central India. | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S., in additional charge. | 1st January | 31st December. |

Since Major Fayrer's departure charge of the Gwalior appointment has been held by Sub-Assistant Surgeon Narayan Canooji Rao: and throughout the year Khan Sahib Sub-Assistant Surgeon Ahmed Bux has held charge of the Bundelkhand appointment.

On the 31st December there were 270 qualified doctors in Central India, with qualifications as follows:—

| | |
|---|---|
| Officers of the Indian Medical Service | 3 |
| Graduates of Universities | 35 |
| Lady Doctors | 6 |
| Mission Doctors (including ladies) | 10 |
| Sub-Assistant Surgeons | 207 |
| Private practitioners— | |
| with University qualifications | 6 |
| Sub-Assistant Surgeons | 13 |
| Total | 270 |

In addition there are 73 senior compounders in charge of small district dispensaries.

## III.—Financial.

The expenditure of the Durbars on their Medical Departments amounted to Rs. 5,69,827 and the Imperial expenditure to Rs. 70,516 including the pay of Agency Surgeons, the cost of the up-keep of Agency Hospitals and Dispensaries, and a grant of Rs. 17,000 to the King Edward Hospital, Indore. There is a decrease of over Rs. 30,000 in Government expenditure owing to the recall of commissioned Medical Officers to military duty.

## IV.—Sanitation and Vital Statistics.

The vital statistics that are prepared are unreliable, but the figures are useful in affording comparison from year to year.

The births registered during the past three years are as follows :—

| Years. | Number. | Rate per 1,000 of population. |
|---|---|---|
| 1913 | 119,861 | 12·80 |
| 1914 | 139,375 | 14·89 |
| 1915 | 110,491 | 11·81 |

I am unable to offer any explanation of the fall in the reported birth rate, the figures given fall far short of the actual births. The variations in the reports from various States appear in the following table :—

1915.

| State. | Population. | Reported births. | Rate per mile. |
|---|---|---|---|
| Gwalior | 3,102,279 | 26,128 | 8·42 |
| Orchha | 330,032 | 3,750 | 11·36 |
| Panna | 228,880 | 4,112 | 17·96 |
| Indore | 1,007,856 | 20,467 | 20·30 |
| Bhopal | 730,383 | 17,043 | 23·33 |

The registered deaths for the past three years are :—

| | 1913. | 1914. | 1915. |
|---|---|---|---|
| Gwalior | 31,291 | 26,939 | 25,562 |
| Orchha | 3,287 | 4,249 | 2,390 |
| Panna | 3,367 | 3,903 | 2,487 |
| Indore | 15,229 | 18,462 | 17,232 |
| Bhopal | 9,582 | 19,362 | 13,791 |

The death rate for the whole of Central India for the past three years has been 10·35, 11·41 and 9·55 : the large fall in 1915 as the above table shows is partly due to a decrease of some 5,500 deaths in Bhopal.

## V.—Vaccination.

The number of vaccinations done was 256,505 practically the same as in the previous year. There are 228 vaccinators at work during the cold weather.

Lymph is prepared at various centres and distributed to the districts.

## VI.—Epidemics.

A.—*Cholera* was far less prevalent than in the previous year. Only 795 deaths occurred compared with 10,075 in 1914.

The affected areas were:—

| | | |
|---|---|---|
| Baghelkhand | with 396 | deaths. |
| Gwalior | „ 193 | „ |
| Bhopal | „ 153 | „ |
| Southern States | „ 53 | „ |

The monthly incidence is shown in the following table:—

| Months. | Gwalior. | Bhopal. | Baghel-khand. | Southern States of Central India. | Total. |
|---|---|---|---|---|---|
| January | ... | ... | ... | ... | ... |
| February | ... | ... | ... | ... | ... |
| March | ... | ... | ... | ... | ... |
| April | 65 | ... | 26 | ... | 91 |
| May | 60 | ... | ... | 23 | 83 |
| June | ... | ... | 49 | ... | 49 |
| July | 68 | 59 | 117 | ... | 244 |
| August | ... | 20 | 104 | ... | 124 |
| September | ... | 28 | 65 | ... | 93 |
| October | ... | 13 | 18 | 30 | 61 |
| November | ... | 9 | 17 | ... | 26 |
| December | ... | 24 | ... | ... | 24 |
| Total | 193 | 153 | 960 | 53 | 795 |

B.—*Plague* remained from last year in Gwalior and Bhopal; it disappeared in the hot weather and there was a slight recrudescence in the winter.

Indore City was infected in January and during the first five months of the year 82 cases occurred. The city was then clear for two months, and in August infection reappeared and spread. The worst month was November when 509 deaths occurred.

The total deaths in Indore State were 1,726, of which 1,485 occurred in the city and 147 in the Residency. In the city over 7,000 persons were inoculated and in the Residency 5,667.

Deaths in Bhopal numbered 819 and in Gwalior 99.

The plague mortality figures for the past five years in Central India are as follows :—

| | |
|---|---|
| 1911 | 16,129 |
| 1912 | 5,282 |
| 1913 | 173 |
| 1914 | 2,286 |
| 1915 | 2,651 |

C.—*Small-pox.*—Only a very small proportion of the cases that occur are treated in Hospitals or Dispensaries : these during 1915 numbered 270 compared with 281 in 1914.

Cases otherwise reported were far less than in the previous year.

## VII.—Famine.

There was no famine during the year.

## VIII.—Lunatics and Lepers.

The only Lunatic Asylum in Central India is that in Indore city with accommodation for 12 patients, where 40 were treated during the year.

The majority of other lunatics remain a charge upon their friends and relations ; those who are dangerous are often confined in Jails and Lock-ups ; and a few who come under official notice are transferred to the Nagpur Asylum for treatment.

For Lepers there is accommodation in four asylums, namely, Indore city (Indore Durbar), Sehore (Bhopal Dispensary Fund), Ujjain (Gwalior Durbar) and Dhar (Canadian Presbyterian Mission).

The following table gives the numbers treated and their cost :—

| | Average number of inmates. | Cost per inmate per annum. |
|---|---|---|
| | | Rs. A. P. |
| Bhopal | 61 | 57 15 5 |
| Gwalior | 22·7 | 78 7 11 |
| Dhar | 29 | 74 11 0 |
| Indore | 34 | Not available. |

## IX.—Jails.

Returns are received from 32 jails, against 31 last year, that at Maihar being included for the first time. The following table shows the population and death rate in the seven large jails :—

| | Average population. | Number of deaths. | Rate per 1,000. |
|---|---|---|---|
| 1. Lashkar Jail | 873·00 | 26 | 29·78 |
| 2. Indore State Central Jail | 336·62 | 4 | 11·88 |
| 3. Bhopal State Central Jail | 268·75 | 13 | 48·37 |
| 4. Rewah State Central Jail | 266·09 | 28 | 105·23 |
| 5. Central India Agency (Government) Jail. | 177·00 | 1 | 5·65 |
| 6. Bhairongarh (Gwalior) Central Jail | 121·00 | 0 | 0 |
| 7. Nowgong District (Government) Jail | 60·20 | 0 | 0 |

The death rates per mille of the past three years are as follows :—

| | 1913. | 1914. | 1915. |
|---|---|---|---|
| 1. Lashkar Central Jail | 9·53 | 17·18 | 29·78 |
| 2. Indore State Central Jail | 4·18 | 21·26 | 11·88 |
| 3. Bhopal State Central Jail | 9·69 | 8·17 | 48·37 |
| 4. Rewah State Central Jail | 13·58 | 107·82 | 105·23 |
| 5. Central India Agency (Government) Jail. | 0 | 13·34 | 5·65 |
| 6. Bhairongarh (Gwalior) Central Jail | 9·70 | 0 | 0 |
| 7. Nowgong District (Government) Jail | 0 | 14·34 | 0 |
| Collective Total | 8·3 | 36·46 | 39·35 |

The collective rate shows a marked increase on the 1913 figures and a slight increase on those for 1914.

## X.—The Victoria Memorial Scholarship Fund.

Under the auspices of this Fund Dais are trained at Indore, Gwalior and Bhopal where the number of pupils and the total expenditure are as follows:—

| | Pupils. | Expenditure. | | | Cost per pupil. | | |
|---|---|---|---|---|---|---|---|
| | | Rs. | A. | P. | Rs. | A. | P. |
| Indore | 20 | 1,480 | 0 | 0 | 74 | 0 | 0 |
| Gwalior | 25 | 1,051 | 2 | 11 | 42 | 0 | 9 |
| Bhopal | 18 | 440 | 10 | 3 | 24 | 7 | 8 |
| Total | 63 | 2,971 | 13 | 2 | 47 | 2 | 9 |

## XI.—King Edward Hospital Medical School.

The number of students in the school on the 1st January 1915 was 161; during the year 36 students passed their final examinations, three left, and 58 were newly admitted, leaving 180 at the end of the year as follows:—

| | |
|---|---|
| 4th year | 44 |
| 3rd „ | 30 |
| 2nd „ | 50 |
| 1st „ | 56 |
| Total | 180 |

Their origin is as follows:—

| | |
|---|---|
| Central India States Scholars | 37 |
| Rajputana States Scholars | 46 |
| Government Scholars | 2 |
| Private Students | 95 |
| Total | 180 |

F. A. SMITH, *M.D., Lieut.-Col., I.M.S.,*
*Administrative Medical Officer*
*in Central India.*

Indore, Central India;
*The 17th August 1916.*

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1915.*
*Population of the province 9,356,980.*

| Class of dispensary. | Number open on 31st December. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State—Public | 6 | ... | ... | 6 | |
| I.—B State (Native State) Public. | 212 | 3 (*a*) | 1 (*b*) | 214 | (*a*) Gohad in Gwalior State— 1 Bilpak in Sailana State. 1 Raoti in Sailana State. |
| II.—State—Special | ... | ... | ... | ... | (*b*) Water works dispensary in Indore State closed in 1914, was not shown in that year's report by mistake. |
| (*i*) Police | 1 | ... | ... | 1 | |
| (*ii*) Forests and Surveys | ... | ... | ... | ... | |
| (*iii*) Canals | ... | ... | ... | ... | |
| (*iv*) Others | ... | ... | ... | ... | |
| III.—Local Fund | 2 | ... | ... | 2 | |
| IV.—Private aided | ... | ... | ... | ... | |
| V.—Private non-aided | 7 | ... | ... | 7 | |
| VI.—Railway | 7 | ... | ... | 7 | |
| TOTAL | 235 | 3 | 1 | 237 | |

CLASSES I AND II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all Railway dispensaries whether maintained by State railways or others.

NOTES.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

## WORKING OF THE HOSPITALS, DISPENSARIES, JAIL HOSPITALS, ON VACCINATION AND ON THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1916.

### I.—Medical Institutions.

1. The Medical Institutions in Central India with which this report deals are as follows :—

| | |
|---|---|
| (*a*) State (British) Public, including the Agency Hospitals and Dispensaries. | 6 |
| (*b*) State (Native State) Public, under the Central India Durbars. | 232 |
| (*c*) State (British) Special. The Malwa Bhil Corps Hospital, Indore. | 1 |
| (*d*) Local Fund Institutions, the King Edward Hospital, Indore, and the Sudder Dispensary, Goona. | 2 |
| (*e*) Private Non-Aided, of the Canadian Presbyterian Mission, | 9 |
| (*f*) Railway Dispensaries . . . . . | 8 |

The total is 258 compared with 237 of last year. The returns from 8 military hospitals in Gwalior are included for the first time.

New dispensaries have been opened at the following places :—

| | |
|---|---|
| Segaon . . . . . | Indore. |
| Naori . . . . . | Gwalior. |
| Sagar . . . . . | ,, |
| Pohari . . . . . | ,, |
| Digthan . . . . . | ,, |
| Doraha . . . . . | Bhopal. |
| Ichhawar . . . . . | ,, |
| Shahgunj . . . . . | ,, |
| Silwani . . . . . | ,, |
| Garhi . . . . . | ,, |
| Asfia Female Dispensary . . . . . | ,, |
| Birjisia Female Dispensary . . . . . | ,, |
| Nadigaon . . . . . | Datia. |
| Tala . . . . . | Rewah. |
| Ramnagar . . . . . | ,, |
| Canadian Presbyterian Mission Dispensary in Old Neemuch city. | Gwalior. |
| Canadian Presbyterian Mission Dispensary in Bagana . | ,, |

and one Railway Dispensary at Kalisindh, Great Indian Peninsula Railway.

The following dispensaries have been closed :—

| | |
|---|---|
| Zarda . . . . . | Indore. |
| Jorah . . . . . | Gwalior. |
| Kaniadhana . . . . . | Kaniadhana. |
| Agra-Berkhera . . . . . | Agra-Berkhera. |
| Manpur . . . . . | Rewah. |

2. Many of the structural improvements contemplated have been held over on account of the war. The following have been carried out :—

Kurwai, Bhopal Agency, the new hospital has been completed.

Rewah, Baghelkhand Agency, the women's ward of the Victoria Hospital has been rebuilt, the Venket Eye Hospital is provided with a new operation room, and the reconstruction of the out-patient's block and an operation room for septic cases has been commenced at the Sutna Bazar Hospital.

Bhabra, Alirajpur State, Southern States Agency; an in-patient ward has been added to the dispensary.

Dhar, Southern States Agency, a new modern hospital with accommodation for 100 patients is in course of erection, and will be completed in 1917.

Barwani, Southern States Agency, the construction of the King Edward Memorial Hospital commenced in 1912 is progressing and during the year one ward has been partly completed.

Sailana, Malwa Agency, new dispensary buildings at Raoti, Bilpank and Bangrod are being completed.

Bagli, Malwa Agency, a ward for 8 patients has been added to the dispensary.

3. *Patients treated.*—The number of patients treated was 2,012,114, an increase of 85,844 on the previous year's figures, of these 26,258 were in-patients compared with 25,465 in 1915. The number of operations recorded is 78,695 against 75,890 in 1915.

4. *Prevailing diseases.*—The prevailing diseases were the same as in 1915, and they appear in the same order of frequency: the figures are:—

| | |
|---|---|
| Malaria | 338,523 |
| Eye diseases | 332,907 |
| Disorders of digestive system | 322,896 |
| Skin diseases | 202,351 |
| Ulcers | 148,257 |
| Rheumatic affections | 59,913 |

For syphilis there were 955 admissions and 16,008 out-patients under treatment.

The tuberculosis the figures are 697 in-patients and 3,828 out-patients aggregating more than twice the number recorded in the previous year: this disease is undoubtedly increasing.

## II.—PERSONNEL.

Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S., remained as Administrative Medical Officer during the year.

The following commissioned officers held charge of the various Agencies:—

| NAME OF | | PERIOD ON DUTY | |
|---|---|---|---|
| Appointments. | Incumbent. | From | To |
| Residency Surgeon, Indore | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January | 31st December. |
| Residency Surgeon, Gwalior | Vacant. | | |
| Agency Surgeon in Bhopal | Major C. B. McConaghy, M.B., I.M.S. | 1st January | 27th May. |
| Agency Surgeon in Baghelkhand. | Major S. Hunt, M.B., I.M.S. | 1st January | 31st December. |
| Agency Surgeon in Bundelkhand. | Vacant. | | |
| Agency Surgeon in the Southern States of Central India. | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January | 31st December. |

At Gwalior Sub-Assistant Surgeon Narayan Canooji Rao held charge of the Residency Surgeon's appointment.

On 7th August 1916, Doctor A. Lankester, M.D., was temporarily appointed Agency Surgeon in Bhopal and remained in charge until the end of the year.

Khan Sahib Sub-Assistant Surgeon Ahmed Bux remained in charge of the Bundelkhand appointment at Nowgong.

On December 31st medical men with the following qualifications were working in the civil medical institutions in Central India :—

| | |
|---|---|
| Officers of the Indian Medical Service | 2 |
| Graduates of Universities | 36 |
| Lady Doctors | 7 |
| Mission Doctors (including ladies) | 7 |
| Sub-Assistant Surgeons | 207 |
| Private practitioners— | |
| with University qualifications | 3 |
| Sub-Assistant Surgeons | 16 |
| Total | 278 |

Seventy six of the smaller district dispensaries are under the charge of senior compounders.

## III.—Financial.

The expenditure incurred by Durbars in their medical department amounted to Rs. 5,27,502, and Imperial expenditure to Rs. 76,619 including the pay of Indian Medical Service officers, the up-keep of the Agency Hospitals and Dispensaries and a grant of Rs. 17,000 to the King Edward Hospital, Indore.

## IV.—Sanitation and Vital Statistics.

These matters are controlled by the various State Medical Departments; and the standards of efficiency vary. The importance of vital statistics is not fully realised, and until this becomes the case, the Sanitarian except in so far as he can apply the broad principles of Hygiene, is working in the dark.

What is required are death reports that bear some semblance to accuracy; patients dying from most diseases have a raised temperature before the end comes and the death is attributed to "fever" and is classed quite erroneously as Malaria. Another desideratum is the compulsory notification of all such diseases as are a danger to the community, including plague, small-pox, cholera, enteric fever and especially tuberculosis.

The registered births during the last three years are as follows :—

| Year. | Number. | Rate per mille. |
|---|---|---|
| 1914 | 139,375 | 14·89 |
| 1915 | 110,491 | 11·81 |
| 1916 | 107,789 | 11·51 |

These figures are undoubtedly inaccurate as the birth rate for the whole of India was 37·82 in 1915.

The figures returned from certain States show the following variations:—

| State. | Population. | Births. | Rate per mille. |
|---|---|---|---|
| Gwalior . . . . . | 3,102,279 | 31,063 | 10·01 |
| Indore . . . . . | 1,007,856 | 10,052 | 9·97 |
| Bhopal . . . . . | 730,383 | 15,653 | 21·43 |
| Orchha . . . . . | 330,032 | 4,424 | 13·40 |
| Panna . . . . . | 228,880 | 5,385 | 23·52 |

Of the same States the births for the past three years are registered as follows:—

| | 1914. | 1915. | 1916. |
|---|---|---|---|
| Gwalior . . . . . | 35,656 | 26,128 | 31,063 |
| Indore . . . . . | 22,787 | 20,467 | 10,052 |
| Bhopal . . . . . | 22,835 | 17,043 | 15,653 |
| Orchha . . . . . | 5,312 | 3,750 | 4,424 |
| Panna . . . . . | 6,526 | 4,112 | 5,385 |

The *death rate* per mille for the whole of Central India has been 11·41, 9·55 and 10·60 for the past three years.

The figures for the same period from the five States with the largest population are:—

| States. | Population. | Death rate. | | |
|---|---|---|---|---|
| | | 1914. | 1915. | 1916. |
| Gwalior . . . . . | 3,102,279 | 8·68 | 8·23 | 7·83 |
| Rewah . . . . . | 1,514,843 | ·42 | ·29 | ·20 |
| Indore . . . . . | 1,007,856 | 18 31 | 17·09 | 13·31 |
| Bhopal . . . . . | 730,383 | 26·50 | 18·88 | 20·63 |
| Orchha . . . . . | 330,032 | 12·87 | 7·24 | 8·44 |

## V.—Vaccination.

The number of vaccinations done was 255,280 or 1,225 less than in the previous year. Of these 249,360 are returned as primary and 5,920 as secondary. The average number of primary vaccinations for the last three years is 254,891 whereas the average number of births registered each year of the same period is 119,218 which reveals a striking fallacy. Thus according to the statistics the vaccinators have had less than half the children to vaccinate than their returns show: it is also far from the case that all children born are vacci-

nated: as mentioned above the births are greatly under-estimated. The number of vaccinators employed is 229.

Lymph is prepared at various centres and distributed to the districts: that made at Manpur gave excellent results and is much in request.

## VI.—Epidemics.

*A. Cholera.*—This disease was widespread and accounted for 5,474 deaths compared with 795 in 1915. Infection appeared in each division of the Agency. The two worst months, as is always the case, were July and August: the Winter months were free.

The following table shows the affected areas and the monthly incidence:—

| Months. | Bhopal. | Gwalior. | Indore. | Malwa. | Bundelkhand. | Southern States. | Baghelkhand. | Total. |
|---|---|---|---|---|---|---|---|---|
| January | ... | ... | ... | ... | ... | ... | ... | ... |
| February | ... | ... | ... | ... | ... | ... | ... | ... |
| March | ... | ... | ... | ... | ... | 11 | ... | 11 |
| April | ... | ... | 2 | ... | ... | 22 | ... | 24 |
| May | ... | 60 | ... | ... | ... | 42 | 30 | 132 |
| June | 325 | 98 | 32 | 1 | ... | 19 | 13 | 488 |
| July | 530 | 133 | 422 | 494 | 60 | 25 | 18 | 1,682 |
| August | 748 | 826 | 352 | 223 | 89 | 50 | ... | 2,288 |
| September | 102 | 565 | 41 | ... | 67 | 35 | ... | 810 |
| October | 3 | ... | 22 | ... | 8 | ... | ... | 33 |
| November | ... | ... | ... | ... | 6 | ... | ... | 6 |
| December | ... | ... | ... | ... | ... | ... | ... | ... |
| Total | 1,708 | 1,682 | 871 | 718 | 230 | 204 | 61 | 5,474 |

*B. Plague.*—Plague was present at the beginning of the year in Gwalior, Bhopal, Indore and Malwa: infection disappeared in the hot months, when the heat was more than usually intense, and a recrudescence occurred towards the end of the rains.

Indore city was infected in January and during the first four months of the year 267 cases occurred, the epidemic then ceased for two months and appeared again in July, the worst month was December when 479 deaths were recorded.

In Holkar State the death roll totalled 1,777, of which 1,428 were in the city of Indore: there, 4,408 persons were protected by inoculation: there were 47 deaths in the Residency and 4,953 inoculations were done. The protection given by inoculation was very apparent, and is fully appreciated by the inhabitants of Indore.

In the other areas affected Gwalior State had 330 deaths, the Malwa Agency 100, the Southern States of Central India 75 and Bhopal 67.

The following table shows the mortality in the various Agency during each month :—

| Months. | Names of Agencies. | | | | | |
|---|---|---|---|---|---|---|
| | Gwalior. | Bhopal. | Malwa. | Southern States of Central India. | Indore. | Total. |
| January . . . . | 8 | 39 | 26 | ... | 283 | 356 |
| February . . . . | 24 | 27 | 31 | 2 | 80 | 164 |
| March . . . . | 30 | 1 | 22 | 7 | 48 | 108 |
| April . . . . . | 11 | ... | ... | ... | 11 | 22 |
| May . . . . . | ... | ... | ... | ... | ... | ... |
| June . . . . . | ... | ... | ... | ... | ... | ... |
| July . . . . . | ... | ... | ... | ... | 2 | 2 |
| August . . . . | ... | ... | ... | 6 | 30 | 36 |
| September . . . . | ... | ... | ... | 10 | 144 | 154 |
| October . . . . | 14 | ... | 1 | 16 | 356 | 387 |
| November . . . . | 79 | ... | 6 | 13 | 344 | 442 |
| December . . . . | 164 | ... | 14 | 21 | 479 | 678 |
| Total . | 330 | 67 | 100 | 75 | 1,777 | 2,349 |

Baghelkhand and Bundelkhand remained free from plague throughout the year.

The plague mortality figures for the past six years in Central India are as follows :—

| | |
|---|---|
| 1911 . . . . . | 16,129 |
| 1912 . . . . . | 5,282 |
| 1913 . . . . . | 173 |
| 1914 . . . . . | 2,286 |
| 1915 . . . . . | 2,651 |
| 1916 . . . . . | 2,349 |

*C. Small-pox.*—The vaccinators, in spite of the returns of the work they perform, do not afford adequate protection from small-pox to the community. Small-pox is practically always present and accounts for many deaths as well as much permanent disablement, especially blindness in children.

The dispensary returns show 317 cases compared with 270 in 1915; but these figures give no indication of the extent of the disease; many patients are treated at their homes, and their names do not appear in dispensary books, and the great majority remain unreported and untreated.

## VII.—Lunatics and Lepers.

There is a Lunatic Asylum in Indore city with accommodation for 12 patients; during the year 29 lunatics were under treatment.

Other patients who come under treatment are transferred to the Nagpur Asylum. It would be a great advantage to have a small Asylum in Central India where British subjects could receive treatment.

There is a considerable amount of Leprosy in Central India. For the treatment of cases there are Asylums at Gwalior, Indore, Bhopal and Dhar.

The following tables shows the average number of inmates :—

| | Average number of inmates. |
|---|---|
| Gwalior | 16 |
| Indore | 20 |
| Bhopal | 25 |
| Dhar | 11 |

## VIII.—Jails.

Returns are received from 32 jails and lock-ups.

The following table shows the jail population and death rate in the seven larger institutions :—

| | Average population. | Number of deaths. | Rate per mille. |
|---|---|---|---|
| 1. Lashkar Jail (Gwalior) | 888·50 | 17 | 19·13 |
| 2. Indore State Central Jail | 319·20 | 5 | 15·66 |
| 3. Rewah State Central Jail | 288·17 | 14 | 48·58 |
| 4. Bhopal State Central Jail | 241·34 | 8 | 33·14 |
| 5. Central India Agency (Government) Jail. | 184·27 | 3 | 16·28 |
| 6. Bhairongarh (Gwalior) Central Jail | 132 | 1 | 7·59 |
| 7. Nowgong District (Government) Jail | 78·50 | ... | ... |
| Total | 2,131·98 | 48 | 22·51 |

The death rates per mille of the past three years are as follows :—

| | 1914. | 1915. | 1916. |
|---|---|---|---|
| 1. Lashkar Jail (Gwalior) | 17·18 | 29·78 | 19·13 |
| 2. Indore State Central Jail | 21·26 | 11·88 | 15·66 |
| 3. Rewah State Central Jail | 107·82 | 105·23 | 48·58 |
| 4. Bhopal State Central Jail | 8·17 | 48·37 | 33·14 |
| 5. Central India Agency (Government) Jail. | 13·34 | 5·65 | 16·28 |
| 6. Bhairongarh (Gwalior) Central Jail | ... | ... | 7·59 |
| 7. Nowgong District (Government) Jail | 14·34 | ... | ... |

The death rate in Indian Jails generally during the year 1915 was 18·74 compared with the collective rate for Central India of 23·45 in 1916.

## IX.—The Victoria Memorial Scholarship Fund.

Under the auspices of this Fund Dais are trained at Indore, Gwalior and Bhopal where the number of pupils and the total expenditure are as follows :—

| | Pupils. | Expenditure. | | | Cost per pupil. | | |
|---|---|---|---|---|---|---|---|
| | | Rs. | A. | P. | Rs. | A. | P. |
| Indore | 20 | 1,341 | 15 | 8 | 67 | 1 | 7 |
| Gwalior | 17 | 1,236 | 0 | 0 | 72 | 11 | 3 |
| Bhopal | 6 | 406 | 9 | 9 | 67 | 12 | 3 |

## X.—The King Edward Hospital Medical School.

At the commencement of the year there were 180 students on the books. Of these 33 obtained their diplomas, and 5 left. There were 71 admissions leaving a total of 213 at the end of the year.

In future the matriculation standard will be required before admission. The Indian Medical Degrees Act No. VII of 1916 deprives the Superintendent of the power of granting, those students who pass the final examination, a registrable qualification, and to bring the school into line with the requirements

of the Act all students will in future appear in Bombay for the licentiate examination of the College of Physicians and Surgeons.

## XI.—War Hospitals in Central India.

In February 1916 accommodation for 50 beds was set aside in the King Edward Hospital, Indore, for Overseas Indian sick and wounded soldiers. The first batch of 30 patients arrived on the 1st March. From March to July the expenditure amounted to Rs. 1,457-9-10 was borne by the Military Authorities: but from August His Highness the Rana of Barwani generously offered to defray the expenses of these patients, which up to the end of the year amounted to Rs. 1,721-11-10. The number of patients received during the year was 160, of whom 25 remained on the 31st December.

In August His Highness the Rana of Barwani and the Raja of Alirajpur jointly offered to equip and maintain at Indore a War Hospital for British troops with accommodation for 40 patients. The Chiefs Guest House was turned into a most comfortable hospital and was ready for occupation on the 23rd September. The first batch of 26 patients arrived on the 8th October. Rations are supplied by the Military Department. The cost to the Durbars amounted to Rs. 8,062-10-5. During the year 45 patients were admitted, of whom 29 remained on 31st December.

In August His Highness the Raja of Dhar offered to maintain six beds in the Roberts Nursing Home, Indore, for British Officers. The first patients arrived on the 20th December.

His Highness the Maharaja of Datia equipped and opened a War Hospital for Indian troops with accommodation for 100 patients in August. The accommodation was subsequently increased to 120 beds.

The Rutlam Durbar are arranging to accommodate 20 British and 25 Indian patients in building placed at their disposal in Indore.

F. A. SMITH, *Lieutenant-Colonel, M.D., I.M.S.,*
*Administrative Medical Officer*
*in Central India.*

INDORE, CENTRAL INDIA;
*The 7th September 1917.*

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1916.*
*Population of the province 9,356,980.*

| Class of dispensary. | Number open on 31st December. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State—Public | 6 | ... | ... | 6 | |
| I.—B State (Native State) Public. | 214 | 23 | 5 | 232 | |
| II.—State—Special | ... | ... | ... | ... | |
| (*i*) Police | 1 | ... | ... | 1 | |
| (*ii*) Forests and Surveys | ... | ... | ... | ... | |
| (*iii*) Canals | ... | ... | ... | ... | |
| (*iv*) Others | ... | ... | ... | ... | |
| III.—Local Fund | 2 | ... | ... | 2 | |
| IV.—Private aided | ... | ... | ... | ... | |
| V.—Private non-aided | 7 | 2 | ... | 9 | |
| VI.—Railway | 7 | 1 | ... | 8 | |
| Total | 237 | 26 | 5 | 258 | |

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State railways or others.

---

Notes.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

| Digthan | „ |
| Victoria Lancer | Bhopal. |
| Nadigaon | Bundelkhand. |
| Harwahi | Baghelkhand. |
| Amrota | „ |

2. On account of the war, structural improvements have to a large extent been held over. The following have been carried out:—

*Bhopal Agency.*—Sehore Ageney Hospital. Improvements have been made in the quarters of the Sub-Assistant Surgeon, giving him more adequate accommodation than he had before. Bhopal. A new State Hospital at the Capital is under course of construction.

*Baghelkhand Agency.*—Sutna Bazar Hospital. An operation room for septic cases, godowns and a cook house have been provided.

*Bundelkhand Agency.*—Nowgong. His Highness the Maharaja of Panna is generously providing an X-Ray installation for the Nowgong Agency Hospital. This has been ordered from England and the Public Works Department will erect a suitable building to hold it.

*Southern States Agency.*—Dhar. The new hospital at Dhar is nearing completion, and is being equipped with all modern conveniences. It is to be opened shortly.

3. *Patients treated.*—The number of patients treated was 2,023,476, an increase of 11,362 on the previous year's figures, of these 25,356 were in-patients compared with 26,258 in 1916. The number of operations performed was 67,750 compared with 78,695 last year; this diminution is due to the prevalence of plague.

4. *Prevailing diseases.*—The prevailing diseases are the same as in previous years: the figures are:—

| | |
|---|---|
| Malaria | 323,774 |
| Eye diseases | 248,858 |
| Skin diseases | 217,322 |
| Disorders of digestive system | 167,410 |
| Ulcers | 148,253 |
| Rheumatic affections | 57,070 |

For syphilis there were 810 admissions and 15,110 out-patients under treatment.

The tuberculosis figures are 581 in-patients and 3,235 out-patients, showing a slight decline on the previous year's figures, the cases in Indore for the past two years are as follows:—

*Tuberculosis Figures.*

| | King Edward Hospital, Indore. | | Indore State. | |
|---|---|---|---|---|
| | In-patients. | Out-patients. | In-patients. | Out-patients. |
| 1916 | 150 | 265 | 108 | 370 |
| 1917 | 116 | 189 | 62 | 311 |

## II.—Personnel.

Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S., remained as Administrative Medical Officer during the year.

The following Commissioned Officers held charge of the various Agencies:—

| Name of | | Period on duty. | |
|---|---|---|---|
| Appointment. | Incumbent. | From | To |
| Residency Surgeon, Indore | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January | 31st December. |
| Residency Surgeon, Gwalior | Vacant. | | |
| Agency Surgeon in Bhopal | Captain G. Holroyd, M.B., I.M.S. | 28th April | 31st December. |
| Agency Surgeon in Baghelkhand. | Lieutenant-Colonel S. Hunt, M.B., I.M.S. | 1st January | 31st December. |
| Agency Surgeon in Bundelkhand. | Vacant. | | |
| Agency Surgeon in Southern States of Central India. | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January | 31st December. |

At Gwalior Sub-Assistant Surgeon Narayan Canooji Rao held charge of the Residency Surgeon's appointment.

Doctor A. Lankester, M.D., held the charge of the appointment of Agency Surgeon in Bhopal from 1st January to 5th April 1917 and Sub-Assistant Surgeon V. K. Phadke from 6th April to 27th April 1917, when Captain Holroyd, I.M.S., took over charge in addition to his military duties.

Khan Bahadur Sub-Assistant Surgeon Ahmed Bux remained in charge of the Bundelkhand appointment at Nowgong.

At the end of the year there were 296 medical men in civil employ in Central India classified as under :—

| | |
|---|---|
| Indian Medical Service Officers | 4 |
| Indian University graduates | 34 |
| Mission Doctors | 5 |
| Sub-Assistant Surgeons | 210 |
| Private practitioners— | |
| Indian University graduates | 10 |
| Sub-Assistant Surgeons | 16 |
| Lady Doctors— | |
| Mission | 7 |
| Indian University graduates | 11 |
| TOTAL | 297 |

In addition to these 81, senior compounders hold charge of the smaller district dispensaries.

## III.—FINANCIAL.

The expenditure incurred by Durbars in their medical departments amounted to Rs. 5,86,065 and Imperial expenditure to Rs. 70,166 including the pay of Indian Medical Service officers, the up-keep of the Agency Hospitals and Dispensaries, and a grant of Rs. 17,000 to the King Edward Hospital, Indore. The corresponding figures for 1916 were Rs. 5,27,562 and and 76,619.

## IV.—SANITATION AND VITAL STATISTICS.

The application of the principles of sanitation can only be based upon what can be learnt from vital statistics. Those obtainable in Central India, although by a balance of errors possessing certain yearly comparative value, afford no true idea of the health or well-being of the community.

*Births.*—During 1917, 110,168 births are reported, which figure taking the population of the last census, namely 9,356,980, gives a birth rate of 11·77 per mille: the birth rate for the whole of India during 1916 was 37·13 so the conclusion is that little more than a quarter of the births occurring in Central India are recorded.

In the last three years the figures are as follows :—

| Year. | Births. | Rate per mille. |
|---|---|---|
| 1915 | 110,491 | 11·81 |
| 1916 | 107,789 | 11·51 |
| 1917 | 110,168 | 11·77 |

Certain States show the following variations:—

| State. | Population. | Births. | Rate per mille. |
|---|---|---|---|
| Gwalior | 3,102,279 | 27,543 | 8·87 |
| Indore | 1,007,856 | 12,550 | 12·45 |
| Bhopal | 730,383 | 17,743 | 24·29 |
| Orchha | 330,032 | 6,456 | 19·56 |
| Panna | 228,880 | 4,681 | 20·45 |

Of the same States the births for the past three years are registered as follows:—

| State. | 1915. | 1916. | 1917. |
|---|---|---|---|
| Gwalior | 26,128 | 31,063 | 27,543 |
| Indore | 20,467 | 10,052 | 12,550 |
| Bhopal | 17,043 | 15,653 | 17,743 |
| Orchha | 3,750 | 4,424 | 6,456 |
| Panna | 4,112 | 5,385 | 4,681 |

*Deaths.*—The number of deaths recorded in Central India in 1917 was 104,172 giving a rate per mille of 11·13 compared with a rate for 1916 for the whole of India of 29·10. It is probable that the actual mortality in the Province approximates to that of India in general. As deaths are more likely to be noted than births the discrepancy in this case is less than in the birth rates.

The death rates as recorded in the larger States disclose variations as under:—

| State. | Population. | Deaths per mille. | | |
|---|---|---|---|---|
| | | 1915. | 1916. | 1917. |
| Gwalior | 3,102,279 | 8·23 | 7·83 | 8·73 |
| Rewah | 1,514,843 | ·29 | ·20 | ·08 |
| Indore | 1,007,856 | 17·09 | 13·31 | 15·97 |
| Bhopal | 730,383 | 18·88 | 20·63 | 24·84 |
| Orchha | 330,032 | 7·24 | 8·44 | 13·01 |

## V.—Vaccination.

The number of vaccinations performed was 242,507 or 12,973 less than in the previous year. The decrease is due to the prevalence of plague throughout the vaccination season, resulting in unwillingness on the part of parents to have their children vaccinated while living under uncomfortable conditions in camp, and in many cases in the vaccinators being employed on plague duty. Of the total all but 2,846 were primary vaccinations.

The number of vaccinators employed is 230 compared with 229 in the previous year.

The number of children vaccinated is two and a half times the number of recorded births, which fact again emphasises the unreliability of the statistics compiled.

Lymph is prepared at various centres and distributed to the districts, that made at Manpur is widely used and gave excellent results.

## VI.—Epidemics.

*A. Cholera.*—In 1916, 5,474 deaths from Cholera were reported, the total in 1917 fell to 589. The greater portion of the infection occurred in Bundelkhand and Baghelkhand, Bhopal, Indore, Gwalior and the Southern States were free from the disease throughout the year.

*B. Plague.*—There was a widespread epidemic throughout the year; the annual mortality during the three previous years was about 2,500 but in 1917 number increased to 15,087.

The northern or low-lying portion of the Agency was comparatively free of infection till the end of the year; but throughout the year, except in May and June, the epidemic was serious in the southern portion which comprises the Malwa plateau.

Epidemics are associated with humidity of the atmosphere, when rats are more infested with fleas than at other times, and especially during the rains when rats seek the shelter of houses more than in dry weather.

A factor that greatly contributed to the severity of the epidemic this year was the shortness and mildness of the hot weather and the early onset of the rainy season. In more normal years the hot and dry weather kills the epidemic and removes practically all foci of infection, so that during the rains the epidemic starts again from a few centres only. This year infection remained during this season in all the affected districts, and the climatic conditions enabled the serious outbreak in the Autumn to be foreseen, and facilitated the preparation of measures to combat it.

The worst month was October as is shown in the appended table. Then infection gradually receded—with the month of January as an exception—until June. In July the recrudescence occurred and the disease rapidly increased.

Inoculation, evacuation and the destruction of rats were the measures adopted in dealing with the epidemics. All authorities in Central India are alive to the economic dangers that threaten, should plague not be controlled, and every thing that seems feasible is being done to stem its ravages.

*Death from Plague.*

| Months. | Names of Agencies. | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | Gwalior. | Baghelkhand. | Bundelkhand. | Bhopal. | Malwa. | Southern States of Central India. | Indore. | Total. |
| January | 305 | ... | ... | ... | 81 | 34 | 458 | 878 |
| February | 555 | ... | 1 | ... | 89 | 104 | 429 | 1,178 |
| March | 386 | 13 | 1 | 1 | 107 | 21 | 284 | 813 |
| April | 267 | 37 | ... | 4 | 10 | 6 | 142 | 467 |
| May | 147 | 11 | ... | 16 | ... | ... | 21 | 195 |
| June | 69 | 1 | ... | ... | ... | ... | ... | 70 |
| July | 397 | ... | ... | 18 | 8 | 3 | 63 | 489 |
| August | 841 | ... | ... | 234 | 198 | 6 | 253 | 1,532 |
| September | 930 | ... | ... | 825 | 351 | 49 | 352 | 2,507 |
| October | 786 | ... | ... | 1,342 | 175 | 11 | 713 | 3,027 |
| November | 602 | 44 | 3 | 421 | 177 | 82 | 832 | 2,161 |
| December | 550 | 17 | 34 | 426 | 553 | 175 | 15 | 1,770 |
| Total | 5,836 | 123 | 39 | 3,287 | 1,749 | 491 | 3,562 | 15,087 |

The figures given are again only of value in comparing the severity of epidemics from year to year. We may assure that the 15,000 deaths reported were all from plague; but that this figure falls short of the actual toll from the disease.

The last epidemic of similar severity occurred in 1911 when 16,129 deaths were recorded.

*C. Small-Pox.*—The dispensary returns show 480 cases compared with 317 in 1916 and 270 in 1915. The great majority of cases do not attend medical institutions for relief, as the nature of the malady is known to all, and also the fact that there is no specific treatment and that the disease takes its course.

Small-pox is not compulsorily notifiable, and even where cases are known, little can be done except in the larger town to isolate infection. To protect the community notification and isolation should be compulsory.

## VII.—Lunatics and Lepers.

There is a Lunatic Asylum belonging to the Indore Durbar in Indore city with accommodation for 12 patients: 22 were treated during the year.

British subjects coming under treatment are transferred to Asylums in other parts of British India.

There is a considerable amount of leprosy in Central India. The following table shows the existing Asylums and the number of patients under treatment:—

| | Average number of inmates. |
|---|---|
| Gwalior | 12 |
| Indore | 10 |
| Bhopal | 29 |
| Dhar | 7 |

Segregation is not compulsory.

## VIII.—Jails.

Returns are received from 32 jails and lock-ups. The average jail population was 2,882·27 and the death rate 27·40 per mille, compared with 19·7 for jails in British India in 1916.

The following table gives mortality statistics for the seven larger jails:—

| | Average population. | Number of deaths. | Rate per mille. |
|---|---|---|---|
| 1. Lashkar Jail (Gwalior) | 868·00 | 23 | 26·40 |
| 2. Indore State Central Jail | 319·20 | 12 | 13·60 |
| 3. Rewah State Central Jail | 306·90 | 16 | 58·10 |
| 4. Bhopal State Central Jail | 199·35 | 5 | 25·01 |
| 5. Central India Agency (Government) Jail. | 164·97 | 2 | 12·85 |
| 6. Bhairongarh (Gwalior) Central Jail. | 136·00 | 5 | 36·70 |
| 7. Nowgong District (Government) Jail | 38·40 | 1 | 27·57 |

The death rates per mille in the same institutions during the past three years have been as under:—

| | 1915. | 1916. | 1917. |
|---|---|---|---|
| 1. Lashkar Jail (Gwalior) | 29·78 | 19·13 | 26·40. |
| 2. Indore State Central Jail | 11·88 | 15·66 | 13·60 |
| 3. Rewah State Central Jail | 105·23 | 48·58 | 58·10 |
| 4. Bhopal State Central Jail | 48·37 | 33·14 | 25·01 |
| 5. Central India Agency (Government) Jail. | 5·65 | 16 28 | 12·85 |
| 6. Bhairongarh (Gwalior) Central Jail. | *Nil* | 7·59 | 36·70 |
| 7. Nowgong District (Government) Jail | *Nil* | *Nil* | 27·57 |

## IX.—The Victoria Memorial Scholarship Fund.

Under the auspices of this Fund Dais are trained at the King Edward Hospital, Indore, and at the Gwalior and Bhopal State Hospitals.

The number of midwives trained and the annual cost of each is shown in the following table :—

| | Pupils. | Expenditure. | | | Cost per pupil. | | |
|---|---|---|---|---|---|---|---|
| | | Rs. | A. | P. | Rs. | A. | P. |
| Indore . . . . . | 19 | 1,607 | 11 | 7 | 84 | 7 | 6 |
| Gwalior . . . . . | 19 | 1,876 | 13 | 5 | 98 | 12 | 5 |
| Bhopal . . . . . | 19 | 370 | 9 | 10 | 19 | 8 | 1 |

There is a great demand for the services of trained women and they at once find employment after obtaining their certificate. At Indore the women during their year's course are instructed and examined in First Aid and Home Nursing.

## X.—The King Edward Hospital Medical School.

During the year there were 9 admissions, 21 students obtained their diploma and 12 left, leaving 189 at the school at the end of the year.

In October for the first time students appeared for their final examination at the College of Physicians and Surgeons, Bombay, instead of being examined at Indore. No students are now admitted to the school who have not passed the Matriculation Examination of one of the Indian Universities.

## XI.—War Hospitals in Central India.

As reported last year, the following hospitals were established in 1916 :—

1. The Barwani Hospital for Indian Troops, with 50 beds, at the King Edward Hospital, Indore.
2. The Barwani and Ali-Rajpur Hospital for British Troops, with 40 beds, at the Chief's Guest House, Indore.
3. The Dhar Officers' Hospital, with 6 beds, at the Roberts Nursing Home, Indore.
4. The Datia Hospital for Indian Troops, with 120 beds, at Datia.

During the current year, the Rutlam Durbar have equipped and maintained—

5. One of 20 beds for British Troops, in a portion of the Section Hospital, Indore.
6. One of 25 beds for Indian Troops, in the Resident's old office, Indore.

These hospitals have been most useful in meeting the requirements of the Military Authorities in times of congestion. The total accommodation provided is :—

| | |
|---|---|
| British officers . . . . . | 6 |
| British soldiers . . . . . | 60 |
| Indian soldiers . . . . . | 195 |

Those at Indore, are in the charge of the Residency Surgeon, with a paid staff for each institution, except in the case of the Barwani Hospital for Indian Troops, where Sub-Assistant Surgeons B. Y. Kulkarni and N. S. Apte act as Honorary Assistants. The Datia Hospital is in the charge of the State Surgeon, and is visited by R. A. M. C. officers from Jhansi.

All soldiers treated in these hospitals have been most carefully looked after; they have been made as comfortable as they could be, and they have all expressed their gratitude and thanks for what has been done for them, through the generosity of the Durbars concerned. The officers at the Nursing Home especially have greatly benefited by their stay at Indore.

Details regarding the number of admissions, and the expenditure of the different hospitals, are as follows:—

1. *Barwani Hospital, Indian Troops.*—25 remained at the commencement of the year, 121 were admitted, total 146, and of these 25 remained at the end of the year. The total cost was Rs. 5,593-11-11.
2. *The Barwani and Ali-Rajpur Hospital, British Troops.*—36 remained and 95 were admitted, total 131, of whom 7 remained on 31st December. The expenditure amounted to Rs. 12,888-14-0.
3. *The Dhar Hospital, British Officers.*—4 remained and 15 were admitted, total 19, of whom 6 were still under treatment at the end of the year. Expenditure Rs. 11,052-1-6.
4. *The Datia Hospital, Indian Troops.*—From the previous year 48 cases remained; there were 454 admissions, total 502, of whom 33 remained at the end of the year. The expenditure amounted to Rs. 28,490-8-2.
5. *The Rutlam Hospital, British Troops.*—Opened in June 1917. There were 20 admissions, all of whom were discharged during the year.
6. *The Rutlam Hospital, Indian Troops.*—Opened in June 1917. There were 41 admissions, of whom 14 remained at the end of the year. The expenditure to the Rutlam Durbar amounted to Rs. 10,714-1-1, which included the initial cost of equipment.

The Indore Committee of the Red Cross Society were most kind in providing such additional comforts and hospital clothing as was required.

In providing outings to the inmates of these hospitals the European officers living in Indore, very kindly lent their motor cars on certain days each week; and the Rutlam Durbar has placed a car at the disposal of the officers at the Nursing Home. This means of getting about and seeing the country has not only very greatly benefited the invalids, but has greatly added to the pleasure of their sojourn in Indore.

At the parsonage, the late Mr. Gardner-Brown and Mr. Waterfield established a club and recreation rooms for British invalids, where papers, books, teas, all kinds of games and gramophones are available. It is maintained by monthly subscriptions from the British officers in Indore. It is situated close to the British Troops' Hospitals, and is much appreciated by those invalids who can get about. Mr. Waterfield has been indefatigable in managing the club.

## XII.—Honours and Rewards.

The title of Khan Bahadur was conferred on Sub-Assistant Surgeon Ahmad Buksh in charge of the Agency Hospital at Nowgong.

2nd Grade Sub-Assistant Surgeon Ram Sahai in charge of the Residency Dispensary, Indore, was awarded the 2nd class Kaiser-i-Hind medal.

Sub-Assistant Surgeon Luxman Canooji Rao of the Rajgarh State Medical Department had conferred upon him the title of Rao Saheb.

F. A. SMITH, *Lieut.-Col., M.D., D.P.H., I.M.S.,*
*Administrative Medial Officer in Central India.*

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1917.*
*Population of the province 9,356,980..*

| Class of dispensary. | Number open on 31st December. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State—Public . . | 6 | (*a*) | (*b*) | 6 | (*a*) 4th Infantry Hospital, Morar (Gwalior). |

| VI.—Railway . . . | 8 | ... | ... | 8 | |
| Total . | 258 | 8 | 6 | 260 | |

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State railways or others.

Notes.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

# ANNUAL REPORT

ON THE

## WORKING OF THE HOSPITALS, DISPENSARIES, JAIL HOSPITALS, ON VACCINATION, AND ON THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1918.

### I.—Medical Institutions.

1. The Medical Institutions in Central India with which this report deals are as follows :—

| | |
|---|---|
| (*a*) State (British) Public, including the Agency Hospitals and Dispensaries. | 6 |
| (*b*) State (Native State) Public, under the Central India Durbars. | 239 |
| (*c*) State (British) special. The Malwa Bhil Corps Hospital, Indore. | 1 |
| (*d*) Local Fund Institutions; the King Edward Hospital, Indore and the Sudder Dispensary, Goona. | 2 |
| (*e*) Private Non-Aided, of the Canadian Presbyterian Mission | 8 |
| (*f*) Railway Dispensaries | 8 |

The total is 264 compared with 260 of last year. The Maharani Female Hospital at Indore is shown this year separately to the Tuko-Ji Rao Hospital.

New Dispensaries have been opened at the following places :—

| | |
|---|---|
| Sagor | Gwalior. |
| Joura | Gwalior. |
| Basoda | Gwalior. |
| Ratanpur | Dhar. |
| Panjapur | Dhar. |
| Rambhapur | Jhabua. |

The following Dispensaries have been closed :—

3rd Infantry Hospital, Morar, Gwalior.

Canadian Mission Dispensary at Barwaha.

Birjisia Female Dispensary, Bhopal.

2. On account of the war, structural improvements have to a large extent been held over. The following have been carried out :—

*Bhopal Agency.*—The buildings of the Agency Hospital, Sehore, are being augmented by a ward of two rooms built by the Bohra community: this will be completed in 1919.

*Bundelkhand Agency.*—Work on the State Hospital, Datia, to be called the Harding Hospital, made good progress and is nearing completion.

3. *Patients treated.*—The number of patients treated was 20,28,563, showing an increase of 5,087 on the previous year's figures, of these 25,824 were in-patients compared with 25,356 in 1917. The number of operations performed was 65,056 compared with 67,750 done last year.

4. *Prevailing diseases.*—The prevailing diseases are the same as in previous years: the figures are :—

| | |
|---|---|
| 1. Eye diseases | 348,618 |
| 2. Malaria | 307,533 |
| 3. Skin diseases | 223,832 |
| 4. Disorders of digestive system | 169,683 |
| 5. Ulcers | 143,407 |
| 6. Rheumatic affections | 56,258 |

For syphilis there were 856 admissions and 12,238 out-patients under treatment.

The tuberculosis figures are 628 in-patients and 3,160 out-patients, showing a slight decline on the previous year's figures, the cases in Indore for the past two years are as follows:—

*Tuberculosis Figures.*

| | King Edward Hospital. | | Indore State. | |
|---|---|---|---|---|
| | In-patients. | Out-patients. | In-patients. | Out-patients. |
| 1917 . . . . . | 116 | 189 | 62 | 311 |
| 1918 . . . . . | 142 | 175 | 59 | 307 |

## II.—Personnel.

Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S., remained as Administrative Medical Officer except for six weeks in the spring, when he took privilege leave and Lieutenant-Colonel S. Hunt, M.B., I.M.S., officiated for him.

The following Commissioned Officers held charge of the various Agencies:—

| Name of | | Period on duty. | |
|---|---|---|---|
| Appointment. | Incumbent. | From | To |
| Residency Surgeon, Indore . | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January 1918. | 15th May 1918. |
| | Lieutenant-Colonel S. Hunt, M.B., I.M.S. | 16th May 1918. | 25th June 1918. |
| | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 26th June 1918. | 31st December 1918. |
| Residency Surgeon, Gwalior . | Vacant. | | |
| Agency Surgeon, Bhopal . | Captain G. Holroyd, M.B., I.M.S. | 1st January 1918. | 29th October 1918. |
| Agency Surgeon, Baghelkhand . | Lieutenant-Colonel S. Hunt, M.B., I.M.S. | 1st January 1918. | 31st December 1918. |
| Agency Surgeon, Bundelkhand . | Lieutenant-Colonel J. W. Watson, I.M.S. | 14th December 1918. | 31st December 1918. |
| Agency Surgeon, in the Southern States of Central India. | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January 1918. | 15th May 1918. |
| | Lieutenant-Colonel S. Hunt, M.B., I.M.S. | 16th May 1918. | 25th June 1918. |
| | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 26th June 1911. | 31st December 1918. |

At Gwalior Sub-Assistant Surgeon Rao Saheb Narayan Canooji Rao held charge of the Residency Surgeon's appointment.

At Sehore Sub-Assistant Surgeon V. K. Phadke held charge of the appointment of the Agency Surgeon in Bhopal from 30th October 1918 to the end of the year.

Sub-Assistant Surgeon Khan Bahadur Ahmed Bux remained in charge of the Bundelkhand appointment at Nowgong from the beginning of the year till 14th December 1918 when he was relieved by Lieut.-Col. J. W. Watson, I.M.S.

At the end of the year there were 284 medical men in civil employ in Central India classified as under :—

| | |
|---|---|
| Indian Medical Service Officers | 3 |
| Indian University graduates | 31 |
| Mission Doctors | 5 |
| Sub-Assistant Surgeons | 202 |
| Private practitioners— | |
| Indian University graduates | 13 |
| Sub-Assistant Surgeons | 16 |
| Lady Doctors— | |
| Mission | 5 |
| Indian University graduates | 4 |
| Sub-Assistaat Surgeons | 5 |

In addition to these 71 senior compounders held charge of the smaller district dispensaries.

## III.—Financial.

The expenditure incurred by Durbars in their Medical Departments amounted to Rs. 7,05,928-1-7 and Imperial expenditure to Rs. 74,816-5-9 including the pay of Indian Medical Service Officers, the up-keep of the Agency Hospitals and Dispensaries, and a grant of Rs. 17,000 to the King Edward Hospital, Indore. The corresponding figures for 1917 were Rs. 5,86,065 and Rs. 70,166.

## IV.—Sanitation and Vital Statistics.

The application of the principles of sanitation can only be based upon what can be learnt from vital statistics. Those obtainable in Central India, although by a balance of errors possessing certain yearly comparative value, afford no true idea of the health or well-keeping of the community.

*Births.*—During 1918, 95,318 births are reported, which figure taking the population of the last Census, namely 93,56,980, gives a birth rate of 10·19 per mille: the birth rate for the whole of India in 1916 was 37 13, and as there is no reason to suppose that the rate for Central India is lower than that of other parts of India we are driven to the conclusion that in this Province only about 25 per cent of actual births are recorded. The Central India rate for 1917 was 11·77 per mille: the difference between the two rates represents a diminution in recorded births of 14,855: this is very largely due to the influenza epidemic, which spread over the Province in the autumn, one result of which was that pregnant women who were attacked almost invariably aborted.

The statement given below will show the figures for the last three years :—

| Year. | Births. | Rate per mille. |
|---|---|---|
| 1916 | 107,789 | 11·51 |
| 1917 | 110,168 | 11·77 |
| 1918 | 95,313 | 10·19 |

Certain States show the following variations :—

| State. | Population. | Births. | Rate per mille. |
|---|---|---|---|
| Gwalior | 3,102,279 | 25,944 | 8·36 |
| Indore | 1,007,856 | 13,355 | 13·25 |
| Bhopal | 730,383 | 14,880 | 23·72 |
| Orchha | 330,032 | 5,470 | 16·57 |
| Panna | 228,880 | 3,757 | 16·41 |

Of the same States the births for the past four years are registered as follows :—

| State. | 1915. | 1916. | 1917. | 1918. |
|---|---|---|---|---|
| Gwalior | 26,128 | 31,063 | 27,543 | 25,944 |
| Indore | 20,467 | 10,052 | 12,550 | 13,355 |
| Bhopal | 17,043 | 15,653 | 17,743 | 14,880 |
| Orchha | 3,750 | 4,424 | 6,456 | 5,470 |
| Panna | 4,112 | 5,385 | 4,681 | 3,757 |

*Deaths.*—The number of deaths recorded in the Agency in 1918 was 3,30,363 giving a rate per mille of 35·31 compared with a rate for 1916 for the whole of India of 29·10. The figures for 1917 were 1,04,172 deaths or 11·13 per mille. The great increase this year is mainly due to influenza from which 4,56,187 deaths are estimated to have occurred in the reports compiled from the returns from the various States. It will be noticed that this figure is 120,000 in excess of the deaths recorded from all causes, and it does not include the Indore figures for influenza, which have not yet come in.

The figures of deaths reported for the last three years from the five States with the largest population are :—

| State. | Population. | Death rate per mille. | | |
|---|---|---|---|---|
| | | 1916. | 1917. | 1918. |
| Gwalior . . . . . | 3,102,279 | 7·83 | 8·73 | 11·71 |
| Rewah . . . . . | 1,514,843 | ·20 | ·08 | ·30 |
| Indore . . . . . | 1,007,856 | 13·31 | 15·97 | 55·87 |
| Bhopal . . . . . | 730,383 | 20·63 | 24·84 | 86·85 |
| Orchha . . . . . | 330,032 | 8·44 | 13·01 | 68·88 |

## V.—Vaccination.

The number of vaccinations done was 209,047 or 33,460 less than in the year 1917. Of these 2,03,277 are returned as primary and 5,770 as secondary. The influenza epidemic greatly interfered with the work of the vaccinators, and in all districts delayed the commencement of their operations. The average number of primary vaccinations for the last three years is 2,35,809 whereas the average number of births registered each year for the same period is 156,896, which either shows that large numbers of vaccinations were done after infancy, or more probably that the number of births is greatly under-estimated.

The number of vaccinators employed is 267 compared with 230 in the previous year.

Lymph is prepared at various centres and distributed to the districts, that made at Manpur is widely used and gave excellent results.

## VI.—Epidemics.

*A. Cholera.*—In 1916, 5,474 deaths from Cholera were recorded, in 1917 there were 589 and last year only 585 : of these 428 took place in Baghelkhand and 52 in Bundelkhand. The rest of the Agency was free from epidemic cholera.

*B. Plague.*—When the year opened one of the most serious epidemics of plague that has occurred in Central India was raging, during each of the first three months of 1918 about 2,400 deaths from this disease were reported. The total deaths numbered 14,609 against 15,087 in the previous year. The year 1917 was marked by a very mild hot weather and an excessive rainfall, conditions which conduce to the spread of plague : 1918 was just the opposite, and as the atmospheric moisture diminished the disease abated, so that in the last six months only 5 per cent of the total deaths for the year occurred. That the usual recrudescence did not take place in the autumn is due to the subnormal moisture and to the fact that the previous twelve months had seen practically every village affected, leaving the survivors to a large extent immune, and a greatly decreased rat population.

The epidemic differed from previous ones, in that the Northern portion of the Agency comprising Gwalior proper, Bundelkhand and Baghelkhand were equally infected with the Malwa plateau.

The usual measures of dealing with the epidemic, namely inoculation, evacuation and rat destruction were carried out.

To discuss the situation a Plague Conference consisting of the Central India State Medical Officers was held under the presidency of the Administrative Medical Officer at Indore in the beginning of April : Major Norman White, C.I.E., I.M.S., the Sanitary Commissioner with the Government of

India, came from Delhi to assist the members of the conference with his advice.

The following resolutions for the guidance of those controlling plague measures were passed.

1. *Inoculation.*—That when human or rat plague is present, inoculation of the community with plague vaccine, and the vacation of infected dwellings, result in a very great saving of life.

2. *Evacuation.*—That vacation of infected dwellings should only be encouraged after arrangements have been made for the temporary housing of the refugees near the town or village site.

3. *Control of evacuation.*—That uncontrolled evacuation, resulting in the invasion of uninfected localities by numerous plague refugees, may be productive of much harm, and village and town communities do well in their own interest to afford such people a cold welcome.

4. *Quarantine.*—That organized quarantine measures and the inspection of railway passengers are not recommended.

5. *Grain trade.*—That certain forms of merchandise, especially grain, are more dangerous as vehicles of plague infection than the human being *per se.* Such merchandise affords unequalled facilities for the transference of rats and rat fleas over long distances. Breaking the bulk of consignments of grain, etc., coming from infected places is a valuable safeguard. Rats are found not uncommonly in goods wagons as well as in country carts. The co-operation of railway companies in diminishing the risk of spread of infection in this way should be solicited.

6. *Grain trade.*—That the grain trade in plague infected and plague threatened India is in a very special sense a dangerous trade and the improvement of grain stores so as to render them rat free would have results of very great value in diminishing the prevalence of plague.

7. *Sanitation and prevention of rat infestation.*—That plague in India if essentially a disease of rats, and its prevalence is proportionate to the degree of rat infestation, which, in its turn is directly determined by the amount of food and shelter for rats that any given place affords, it follows that all measures designed to limit the food available for rats are plague measures of great importance. The protection of food supplies from the depredations of rats, efficient scavenging, house tidiness and the raising of the sanitary standard of town or village are important anti-plague measures.

8. *Rat destruction.*—That rat destruction measures by means of poison and traps, are of the greatest value if intelligently and energetically carried out, with a lively appreciation of the habits and customs of rats. Such measures are likely to be most efficacious in the non-epidemic season when foci of infection are few. In favourable years energetic measures in the hot dry season might well result in the eradication of infection.

9. *Notification.*—That prompt notification of rat mortality or human plague is of the utmost importance, and no efforts should be spared to effect improvements in this direction. The closest co-operation in this regard between neighbouring States is essential.

10. *Anti-flea measures.*—That the exposure to the sun of the bedding and the clothes of people arriving from infected localities is a valuable safeguard. An hour's exposure at a temperature of 120 F. is sufficient to kill all fleas.

11. *Disinfection.*—That chemical disinfection has a very limited value and in the opinion of this conference, the benefits have not been commensurate with the amount of money and labour commonly expended thereon.

12. *Segregation.*—That we do not regard the segregation of patients and contacts as necessary.

13. *Education.*—That every effort should be made to make the people realise the danger of close association with the rat and the amount of financial loss that such association entails. To this end it would be well if the elements of home hygiene were taught in all schools.

14. *Public health control.*—In view of the absence of any public health organization in Municipalities and rural areas in Central India, the conference realise that serious efforts to eradicate plague infection are not feasible. Nor is it possible, at the present time, to deal with the numerous other parasitic infection that here, as elsewhere in India, hamper so seriously industrial and other forms of development. They therefore recommend for the consideration of the Central India States, the urgent necessity of developing public health organization. The necessary outlay would be considerable; but expenditure on well thought out schemes would be in every way remunerative.

15. *Health board.*—They suggest that a central advisory health board would be of great value.

The following table shows the monthly incidence in the various Agencies:—

*Death from Plague.*

| Months. | Names of Agencies. | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | Indore. | Gwalior. | Baghelkhand. | Bundelkhand. | Bhopal. | Malwa. | Southern States of Central India. | Total. |
| January . | 332 | 1,112 | 19 | 114 | 372 | 394 | 118 | 2,491 |
| February . | 242 | 1,399 | 5 | 74 | 340 | 74 | 189 | 2,323 |
| March . | 204 | 1,417 | 37 | 356 | 281 | 156 | 24 | 2,475 |
| April . | 152 | 1,013 | 119 | 274 | 73 | 16 | 6 | 1,653 |
| May . | 1 | 291 | 40 | 31 | 3 | ... | ... | 366 |
| June . | ... | 336 | ... | ... | ... | ... | ... | 336 |
| July . | ... | ... | ... | ... | 6 | ... | ... | 6 |
| August . | 3 | 2 | ... | ... | 35 | ... | ... | 40 |
| September . | 5 | 102 | ... | ... | 119 | ... | ... | 226 |
| October . | ... | 550 | ... | ... | 95 | ... | ... | 545 |
| November . | ... | 23 | ... | ... | 2 | ... | ... | 25 |
| December . | ... | ... | 23 | ... | ... | ... | ... | 23 |
| Total . | 939 | 6,245 | 243 | 849 | 1,326 | 640 | 367 | 10,609 |

*C. Small-Pox.*—The Dispensary returns show 468 cases compared with 317 in 1916 and 480 in 1917. There is a great deal more of this disease about than would be the case were vaccination efficiently carried out. The vast majority of patients remain untreated as the nature of the disease is well known and also the fact that there is no specific remedy.

If small-pox and other infectious diseases could be made notificable it would confer a great benefit on the community: foci of infection would then be known and isolation could be arranged for.

*D. Influenza.*—The most important event in the medical history of Central India for the year—and the same was the case for the whole of India—was the epidemic of influenza in the autumn.

There were two epidemic periods, the earlier one in August, not very wide spread and less violent, and a later one dating from about October of marked violence and extending to nearly every village in the Province.

The following table gives data regarding the epidemic compiled from the reports from the various Agencies: the Indore returns are not available.

| Agency. | Onset. | Subsidence. | Number of deaths. | Population. lost per cent. |
|---|---|---|---|---|
| Bhopal . . | 26th August 1918 . | 4th December 1918 . | 54,685 | 5·20 |
| Southern States of Central India. | 4th October „ . | 30th November „ . | 27,399 | 3·92 |
| Bundelkhand . | 9th „ „ . | 12th „ „ . | 50,405 | 4·45 |
| Baghelkhand . | 25th August „ . | 30th „ „ . | 200,000 | 11·23 |
| Malwa . . | 1st „ „ . | „ „ „ . | 27,832 | 7·50 |
| Gwalior . . | 1st September „ . | „ „ „ . | 95,866 | 3·10 |
| Indore . . . | Returns not received | TOTAL . | 456,187 | |

The epidemic appeared with such suddenness, was so unexpected, of such a fatal type and was so universal that medical arrangements were entirely inadequate to cope with it. From what has gone before in this report, it will be realised that the collection of vital statistics that bear any semblance to actuality is a matter of some difficulty. With reference to the influenza epidemic special measures were taken to collect data from the various State Medical Departments through the Agency Surgeons, so they may be regarded as more accurate than the statistics furnished by the ordinary routine methods.

*Bacteriology.*—During the epidemic there was little time for scientific investigation as every member of the medical profession was engaged night and day in looking after patients. In the small number of cases from which discharges were examined in the King Edward Hospital Laboratory Pfeiffer's bacillus of influenza was found associated with pneumococcus and abundant cocci, of which streptococci were predominant.

*Epidemology.*—Malwa was the first Agency affected, then the remainder of the Malwa plateau, and afterwards the North-Eastern portion of the province; as the infection came from the Bombay Presidency, this is the natural sequence for its spread in this part of India. No areas seem to have escaped altogether; but in Dhar State the inhabitants of certain villages, mistaking the epidemic, on account of its high mortality, for plague, at its onset evacuated their houses and lived in the open; those who did so are reported to have escaped infection altogether; the fresh air saved them. Another notable instance of protection due to the same factor was the Central India Agency Jail at Indore with a population of about 153 prisoners: they lived in barracks with large barred doors on both sides permitting ample ventilation, and although there was serious infection on all sides and amongst the Jail staff only 20 prisoners contracted influenza, and all but one recovered without complications.

*Case mortality.*—The fatality varied and no statistics are available for the Agency as a whole. In some villages all the inhabitants died, and others lost 50 per cent. In the Southern States 41 per cent. of those attacked died, but as the total attacks are underestimated the percentage should probably be considerably lower. In Baghelkhand 90 per cent. of the inhabitants are reported to have been attacked and the deaths numbered 11·23 per cent. of the population giving a case mortality of 12·6 per cent. In Gwalior Residency, a small area with good sanitary surroundings 195 cases occurred of whom 6 died, these were all under the treatment of the Officiating Residency Surgeon. In the Lashkar Jail there were 22 deaths out of 112 attacks giving a fatality of 19·6 per cent. In the whole of the Bhopal Agency the case mortality was 9·38 per cent. In Bundelkhand 11 per cent. of the population were attacked

and 50,405 deaths occurred in 143,356 cases, giving a fatality of 35·1 per cent.

*Preventive measures.*—Those adopted were throat and nasal douches, of mild antiseptics, such as boracic acid and potassium permanganate; what is to be aimed at, is keeping these passages clean and healthy, rather than destroying the infection *in situ*. The administration of quinine, given after meals during an epidemic is of the greatest value by preventing the onset of malaria; which if an attack occurs, will undoubtedly render the patient a readier victim to the more serious infection; and alternatively patients suffering from influenza will be very seriously handicapped if the supervention of malaria cannot be guarded against.

*Symptomology.*—The onset of the attacks was usually marked by a sore throat and coryza with slight fever running up to 100° or 101°, a feeling of lassitude and loss of appetite. In uncomplicated cases this persisted for three or four days and was accompanied by a slight cough. At the end of that time all symptoms disappeared, leaving the patient weak, but able to get about again; and herein lay one of the principal dangers of the attack, as those who left their beds too soon either died from cardiac failure or developed pneumonia, which often proved fatal. The commonest complication was pneumonia, which when due to the pneumococcus ran a normal course, but when the infection also included the virulent strain of streptococcus, the disease was prolonged, other organs were affected and the case mortality was much higher. Gastnitsi frequently occurred with incessant vomiting, also ententis and peritonitis. Of cerebral complications meningitis was common commencing as the basal type. The cardiac symptoms were dilatation of the heart and a feeble pulse: the valves were rarely affected; but in a large number of cases seen there was pericarditis with effusion. This often persisted after the pneumonia had cleared up and gave a large area of cardiac dullness, a slow pulse of about 60 beats a minute, and respirations in the neighbourhood of 50, such patients unless under skilled medical advice were in the utmost danger, as raising the head from the pillow might cause instant death from the additional strain placed on the already overburdened heart. A late effect observed in a few cases was insanity with marked delusions, this is probably caused by taxœmia, and it improves under vaccine treatment.

*Therapeutics.*—The two following mixtures were largely used in Central India :—

R.

Potassii nitratis gr. v.
Potossii Chloratis gr. v,
Quininae Sulphatis gr. iii.
Acidi Nitrohydrochlorici diluti Minims X.
Magnesii Sulphatis drachm i.
Syrupi Simplicis „ i.
Aqua Cinamon ad unciam i.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

M. F. Mistura.

Sig. To be taken three or four times a day at the onset of the attack.

R.

Ammonii Carbonatis gr. v.
Tinctura Scillæ Minims x.
Liqueris Ammoniæ Acetatis drachm i.
Tinctura Digitalis Minims v.
Tinctura Nucis Vomicæ Minims v.
Spiritus Camphoræ Minims x.
Aquae Cinnamoni ad unciam i.

M. F. Mistura.

Sig. To be taken three or four times a day when cough occurs.

Quinine given after meals, is invaluable for preventing the onset of malaria as a complication.

Of drugs during the onset and the course of the attack Ceylon Oil of Cinnamon and Tincture of Iodine are of the greatest value, both in mitigating the symptoms, and in preventing the onset of complications : and also during the attack hypodermic injections of camphor oil.

Experience shows that the general hygienic principles to be relied on in dealing with cases are complete rest in bed, fresh air and food. The majority of the people in their ignorance neglect all three measures and this accounts for the very high mortality. During the epidemic vaccine was not available; stocks are now kept in the Government Laboratories and will be available should subsequent epidemics occur.

*Classes affected.*—No class or age showed any degree of immunity but although it has not been possible to prepare statistics bearing on the point, it seems clear that the more fresh air people got the less they were liable to contract the disease; people living in large well ventilated houses were less liable to attack, and if attacked much less liable to complications than those living in over-crowded ill-ventilated dwellings. The latter on the onset of fever often closed all channels of ventilation, wrapped their heads up in a rizai, and, if they could afford it lit a charcoal sigri to consume the little oxygen that remained in the room.

Pregnant women seem rarely to have escaped infection, if pneumonia supervened, they always aborted and very rarely survived. This will cause a shrinkage in the birth rate up to June 1919.

## VII.—Lunatics and Lepers.

There is a Lunatic Asylum belonging to the Indore Durbar in Indore City with accommodation for 12 patients. British patients coming under treatment are transferred to Asylums in British India.

There is a considerable amount of leprosy in Central India. For the treatment of cases there are asylums at Gwalior, Indore, Bhopal and Dhar.

The following table shows the average number of inmates :—

| Name of place. | Daily average. |
|---|---|
| Gwalior (Ujjain) | 13·7 |
| Indore | 40 |
| Bhopal (Sehore) | 35·12 |
| Dhar | 7 |

## VIII.—Jails.

There are altogether 32 jails and lock-ups in Central India, for which returns are received.

The following table shews the jail population and death rate in the 7 larger institutions :—

| | Average population. | Number of deaths. | Rate per mille. |
|---|---|---|---|
| 1. Lashkar Jail (Gwalior) | 990·8 | 19 | 19·1 |
| 2. Indore State Central Jail | 319·2 | 20 | 62·7 |
| 3. Rewah State Central Jail | 274·27 | 32 | 116·67 |
| 4. Bhopal State Central Jail | 255·45 | 20 | 78·12 |
| 5. Central India Agency (Government) Jail. | 149·57 | 1 | 6·7 |
| 6. Bhairongarh (Gwalior) Central Jail. | 148·3 | 7 | 47·2 |
| 7. Nowgong District (Government) Jail | 29·94 | ... | ... |

The death rates per mille of the past three years are as follows:—

| | 1916. | 1917. | 1918. |
|---|---|---|---|
| 1. Lashkar Jail (Gwalior) . . | 19·13 | 26·40 | 19·1 |
| 2. Indore State Central Jail . . | 15·66 | 13·60 | 62·7 |
| 3. Rewah State Central Jail . . | 48·58 | 58·10 | 116·67 |
| 4. Bhopal State Central Jail . . | 33·14 | 25·01 | 78·12 |
| 5. Central India Agency (Government) Jail. | 16·28 | 12·85 | 6·7 |
| 6. Bhairongarh (Gwalior) Central Jail . | 7·59 | 36·70 | 47·2 |
| 7. Nowgong District (Government) Jail | ... | 27·57 | ... |

## IX.—The Victoria Memorial Scholarship Fund.

Under the auspices of this Fund Dais are trained at the King Edward Hospital, Indore, and at the Gwalior and Bhopal State Hospitals where the number of pupils and the total expenditure are as follows:—

| | Pupils. | Expenditure. | | | Cost per pupil. | | |
|---|---|---|---|---|---|---|---|
| | | Rs. | A. | P. | Rs. | A. | P. |
| Indore . . . . . | 14 | 1,604 | 9 | 0 | 114 | 9 | 2 |
| Gwalior . . . . . | 17 | 895 | 3 | 9 | 55 | 3 | 1 |
| Bhopal . . . . . | 12 | 306 | 5 | 6 | 25 | 8 | 0 |

There is a great demand for the services of trained women and they at once find employment after obtaining their certificates. At Indore the women during their year's course are instructed and examined in First Aid and Home Nursing.

## X.—The King Edward Hospital Medical School.

During the year there were 16 admissions, 18 students obtained their diploma and 28 left, leaving 143 at the school at the end of the year.

## XI.—War Hospitals in Central India.

The following War Hospitals have been established in Central India:—

1. The Barwani Hospital for Indian Troops, with 50 beds, at the King Edward Hospital, Indore.
2. The Barwani and Ali-Rajpur Hospital for British Troops, with 40 beds, at the Chief's Guest House, Indore.
3. The Dhar Officers' Hospital, with 6 beds, at the Roberts Nursing Home, Indore.
4. The Datia Hospital for Indian Troops, with 120 beds, at Datia.
5. The Rutlam Hospital with 20 beds for British Troops in a portion of the Section Hospital, Indore, and 25 beds for Indian Troops is the Resident's old office.

Since their establishment at the expense of the Durbars whose name they bear these Hospitals have done most useful work and were much appreciated by the Military authorities. The total accommodation was:—

| | |
|---|---|
| British officers . . . . . | 6 |
| British soldiers . . . . . | 60 |
| Indian soldiers . . . . . | 195 |

Those at Indore were under the charge of the Residency Surgeon, and the Datia Hospital of the State Surgeon, and is visited by R. A. M. C. officers from Jhansi.

All soldiers treated in these hospitals have been most carefully looked after; they have been made as comfortable as they could be, and they have all

expressed their gratitude and thanks for what has been done for them, through the generosity of the Durbars concerned. The officers at the Nursing Home especially have greatly benefited by their stay at Indore.

Details regarding the number of admissions, and the expenditure of the different hospitals, are as follows :—

1. *Barwani Hospital, Indian Troops.*—25 remained at the commencement of the year, 43 were admitted. All were discharged by 9th January 1919, and the hospital was closed. The expenditure during the year war Rs. 2,946-9-4.
2. *Barwani and Ali-Rajpur Hospital, British Troops.*—7 remained at the commencement of the year and there were no fresh admissions. The hospital was consequently closed. The expenditure during the year was Rs. 4,011-14-2.
3. *Dhar Hospital, British Officers.*—6 remained at the commencement of the year and 6 were admitted. All patients were discharged by 24th November 1918 and the hospital was closed. Expenditure during the year was Rs. 10,783-4-0.
4. *The Datia Hospital, Indian Troops.*—From the previous year 33 cases remained; there were 348 admissions, total 381, of whom 366 cases were discharged cured and were sent to the Convalescent Section at Lucknow and 6 died; end of the year 9 cases remained. The hospital was closed on 31st March 1919.
5. *The Rutlam Hospital, British Troops.*—There were 23 admissions, all were discharged by 27th November 1918 and the hospital was closed. The expenditure during the year was Rs. 6,552-3-10.
6. *The Rutlam Hospital, Indian Troops.*—14 remained at the commencement of the year, they all were transferred to the Barwani War Hospital on 9th January 1918 and the hospital was closed.

F. A. SMITH, *Lieut.-Col., M.D., D.P.H., I.M.S.,*
*Administrative Medial Officer in Central India.*

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1918.*
*Population of the province 9,356,980.*

| Class of dispensary. | Number open on 31st December. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State—Public . . | 6 | ... | ... | 6 | |
| II.—State—Special . . | 234 | 7 | 2 | 239 | |
| (*i*) Police . . . | 1 | ... | ... | 1 | |
| (*ii*) Forests and Surveys | ... | ... | ... | ... | |
| (*iii*) Canals . . | ... | ... | ... | ... | |
| (*iv*) Others . . | ... | ... | ... | ... | |
| III.—Local Fund . . | 2 | ... | ... | 2 | |
| IV.—Private aided . . | ... | ... | ... | ... | |
| V.—Private non-aided . | 9 | ... | 1 | 8 | |
| VI.—Railway . . . | 8 | ... | ... | 8 | |
| Total . | 260 | 7 | 3 | 264 | |

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State railways or others.

---

Notes.

1. Transfers of dispensaries from one class to another should be noted the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

# ANNUAL REPORT

ON THE

## WORKING OF THE HOSPITALS, DISPENSARIES, JAIL HOSPITALS, ON VACCINATION, AND ON THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1919-20.

---

### I.—Medical Institutions.

1. The report deals with the following hospitals and dispensaries :—

| | |
|---|---|
| (*a*) State (British) Public, including the agency hospitals and dispensaries. | 6 |
| (*b*) State (Native State) Public, including hospitals and dispensaries belonging to the Durbars in Central India. | 243 |
| (*c*) State (British) Special, the Malwa Bhil Corps Hospital, Indore. | 1 |
| (*d*) Local Fund, the King Edward Hospital, Indore, and the Sudder Bazar Dispensary, Guna. | 2 |
| (*e*) Private non-aided, the hospitals and dispensaries belonging to the Canadian Presbyterian Mission. | 8 |
| (*f*) Railway dispensaries belonging to the Great Indian Peninsula Railway and the Bombay, Baroda and Central India Railway. | 8 |

During the year 1919 eight new dispensaries were opened at the following places :—

Second Infantry Dispensary at Indore.
Antri Dispensary in Gwalior State.
Victoria Lancers Dispensary in Bhopal.
Kotra in Rajgarh State.
Sidhi in Rewa State.
Mission Dispensary at Harpalpur.
Udainagar Dispensary in Dhar.
Dhamnod Dispensary in Rutlam State.

The following institutions have been closed during the year under report :—

Lawani Dispensary in Indore State.
Gohad Dispensary in Gwalior State.
Radhaniwas Dispensary in Datia State.
Nimanpur Dispensary in Dhar State.

The total number of hospitals and dispensaries in Central India is 268 compared with 264 in the previous year.

In addition to above 13 camp dispensaries were opened by the Gwalior Durbar in the famine districts of Bhind, Sheopur, Narwar and Gird. The total number of patients treated in them was 3,951.

2. The more important structural improvements made during the year in the various agencies are as below :—

*Indore.*—A new ward has been erected for the use of the Bohra Community by Khan Sahib Seth Lukman Bhoy of Ujjain, and is called after his name. The foundation stone was laid on

7th April 1919 and the building declared open on 17th November 1919 by the Hon'ble Sir O. V. Bosanquet, Agent to the Governor General in Central India. The accommodation provided consists of six small wards, each of which has a small compound with bath-room, cook-room, etc., behind.

*Bhopal Agency.*—The ward of two rooms by the Bohra Community at the Agency Hospital at Sehore was completed and opened in February 1919.

*Bundelkhand.*—Some further work has been done on the State Hospital, Datia, which is now almost completed.

3. *Patients treated.*—The total number of patients treated during the year was 1,884,038 as against 2,028,563 of the previous year, *i.e.*, a decrease of 144,525. In-patients number 26,957 compared with 25,824 in 1918.

The number of operations performed was 72,422 compared with 65,056 in the previous year and 67,750 in 1917.

The large decrease in the number of patients treated in the year 1919 is due to the fact that a severe type of influenza epidemic prevailed in Central India in the year 1918.

4. *Prevailing diseases.*—These were the same as during the previous years : under the six principal heads the numbers were as below :—

| | |
|---|---|
| Malaria | 289,939 |
| Eye diseases | 266,634 |
| Skin diseases | 209,881 |
| Disorders of digestive system | 185,051 |
| Ulcers | 138,692 |
| Rheumatic affections | 60,969 |

For syphilis the in-door patients numbered 922 against 856 of the previous year and out-door patients were 14,163 as compared with 12,238 of 1918.

The tuberculosis figures were 669 admissions and 3,733 out-patients against 628 and 3,160, respectively of previous year.

## II.—Personnel.

Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S., was the Administrative Medical Officer in Central India throughout the year.

The following Commissioned Medical Officers held charge in the various agencies :—

| Name of | | Period on duty. | |
|---|---|---|---|
| Appointments. | Incumbents. | From | To |
| Residency Surgeon, Indore | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January 1919. | 31st December 1919. |
| Residency Surgeon, Gwalior | Vacant. | | |
| Agency Surgeon in Bhopal, Sehore. | Major C. B. McConaghy, M.B., I.M.S. | 28th January 1919. | 31st December 1919. |
| Agency Surgeon in Baghelkhand, Sutna. | Lieutenant-Colonel S. Hunt, M.B., I.M.S. | 1st January 1919. | 21st July 1919. |
| | Major J. R. J. Tyrrell, M.B., I.M.S. | 22nd July 1919 | 31st December 1919. |
| Agency Surgeon in Bundelkhand, Nowgong. | Lieutenant-Colonel J. W. Watson, I.M.S. | 1st January 1919. | 13th January 1919. |
| | Major J. R. J. Tyrrell, M.B., I.M.S. | 14th January 1919. | 31st December 1919. |
| Agency Surgeon in Southern States of Central India. | Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S. | 1st January 1919. | 16th January 1919. |
| | Major G. D. Franklin, O.B.E., I.M.S. | 17th January 1919. | 31st December 1919. |

As quarters were not available at Manpur for the Agency Surgeon in the Southern States of Central India, Major G. D. Franklin, O.B.E., I.M.S., is put up in Indore and in addition to his own duties, works as a lecturer in the King Edward Hospital Medical School, Indore.

At Gwalior Sub-Assistant Surgeon Rao Saheb Narain Rao Ganuji held charge of the Residency Surgeon's appointment from 1st January 1919 to 17th June 1919 when he was transferred to Sehore and the charge of the Residency Surgeon at Gwalior was held by Sub-Assistant Surgeon V. K. Phadke from the 18th June to 23rd December 1919. Sub-Assistant Surgeon V. K. Phadke proceeded on leave from the 24th December 1919 and after that the post remained vacant till the end of the year.

Sub-Assistant Surgeon V. K. Phadke held charge of the office of the Agency Surgeon in Bhopal from 1st to 27th January 1919 when he was relieved by Major C. B. McConaghy, M.B., I.M.S.

There are 292 qualified medical men in Central India with qualifications as mentioned below :—

| | |
|---|---|
| Indian Medical Service Officers | 4 |
| Graduates of Indian University | 34 |
| Mission Doctors | 6 |
| Sub-Assistant Surgeons | 206 |

Private practitioners—

| | |
|---|---|
| Indian University Graduates | 8 |
| Sub-Assistant Surgeons | 18 |

Lady Doctors—

| | |
|---|---|
| Mission | 5 |
| Indian University graduates | 6 |
| Sub-Assistant Surgeons | 5 |

In addition there are 77 senior compounders who hold charge of small dispensaries in the districts.

## III.—Financial.

The total sum expended by the Durbars on their medical institutions amounted to Rs. 4,98,006-3-11 and the expenditure incurred from Imperial Revenues amounted to Rs. 68,853-12-9 including the pay of Agency Surgeons, the cost of up-keep of agency hospitals and dispensaries and a grant of Rs. 17,000 to the King Edward Hospital, Indore.

## IV.—Sanitation—Vital Statistics.

The vital statistics that are prepared are unreliable but the figures recorded serve for making comparison from year to year.

The births registered during the past three years are shown in the subjoined statement below :—

| Years. | Numbers. | Rate per 1,000 population. |
|---|---|---|
| 1917 | 110,168 | 11·77 |
| 1918 | 95,313 | 10·19 |
| 1919 | 67,643 | 7·27 |

Figures for the principal States in Central India give the variations in the following table :—

| States. | Population. | Births. | Rate per mille. |
|---|---|---|---|
| Gwalior . . . . . | 3,102,279 | 18,377 | 5·9 |
| Indore . . . . . | 1,007,856 | 11,308 | 11·2 |
| Bhopal . . . . . | 739,383 | 9,246 | 12·7 |
| Orchha . . . . . | 330,032 | 4,135 | 12·5 |
| Panna . . . . . | 228,880 | 1,451 | 6·3 |

The deaths recorded in the principal States in Central India for the past four years are :—

| States. | 1916. | 1917. | 1918. | 1919. |
|---|---|---|---|---|
| Gwalior . . | 24,312 | 27,089 | 36,331 | 153,265 |
| Indore . . | 13,415 | 16,096 | 56,317 | 15,512 |
| Bhopal . . | 15,068 | 18,149 | 63,434 | 16,814 |
| Orchha . . | 2,786 | 4,296 | 21,083 | 5,662 |
| Panna . . | 4,041 | 3,294 | 10,652 | 12,767 |

The death-rate for the whole of Central India for the past three years has been :—

| | |
|---|---|
| 1917 . . . . . | 104,172 |
| 1918 . . . . . | 330,363 |
| 1919 . . . . . | 238,494 |

The decrease in 1919 as the above table shows is partly due to the fact that there was no serious epidemic of influenza as in 1918, except in Gwalior State in the earlier months of the year.

## V.—Vaccination.

The number of vaccinations done was 232,828 or 23,781 more than in the previous year. Of these 222,298 are returned as primary and 10,530 as secondary.

Two hundred and seventy-two vaccinators were engaged during the year 1919-20.

Lymph is prepared at various centres, and that prepared at Manpur was distributed to various States and agencies in Central India at a comparatively small cost. The Manpur lymph has given good results.

## VI.—Epidemics.

*A. Cholera.*—All agencies were affected with cholera, and it was serious in Bundelkhand and Gwalior. In other agencies the epidemic was of a less serious type. The total number of cases was 14,738 with 8,309 deaths compared with 485 deaths in the previous year and 589 in 1917. Indore Residency was free from this disease. The following table gives in details the figures of deaths from cholera :—

*Statement of deaths from Cholera in 1919.*

| Months. | Indore State. | Gwalior. | Bhopal. | Bundelkhand. | Baghelkhand. | Southern States. | Malwa. | Total. |
|---|---|---|---|---|---|---|---|---|
| January | ... | ... | 9 | ... | ... | ... | ... | 9 |
| February | ... | ... | 57 | ... | ... | ... | ... | 57 |
| March | ... | ... | ... | ... | ... | ... | ... | ... |
| April | ... | ... | 12 | ... | 55 | ... | ... | 67 |
| May | ... | ... | ... | 99 | 127 | ... | ... | 226 |
| June | ... | ... | 89 | 39 | 459 | ... | ... | 637 |
| July | 162 | 15 | 345 | 54 | 176 | ... | 15 | 767 |
| August | 24 | 1,123 | 193 | 1,182 | 74 | 40 | 149 | 2,785 |
| September | 19 | 732 | 150 | 1,884 | 32 | 12 | 26 | 2,355 |
| October | 19 | 341 | 57 | 366 | 25 | 7 | ... | 815 |
| November | ... | ... | 9 | 28 | 22 | ... | ... | 59 |
| December | ... | 10 | ... | ... | 22 | ... | ... | 32 |
| Total | 224 | 2,221 | 921 | 3,702 | 992 | 59 | 190 | 8,309 |

The above table shows that the epidemic was most serious during the period from July to October 1919.

*B. Plauge.*—There was very little plague during the year and 1,058 deaths occurred from this cause compared with 14,609 in 1918. The agencies affected were Bhopal, Baghelkhand and Gwalior. The infection remained in Bhopal State from the previous year. It disappeared in June but broke

out again towards the end of the rains. The detailed statement below shows the number of deaths reported in the year by months and agencies :—

*Deaths by Plague for each Agency by months for the year 1919.*

| Months. | Gwalior. | Bhopal. | Baghelkhand. | Total. |
|---|---|---|---|---|
| January | ... | 8 | ... | 8 |
| February | ... | 41 | 94 | 135 |
| March | 67 | 29 | 77 | 173 |
| April | 42 | 24 | 68 | 134 |
| May | 45 | 4 | 5 | 54 |
| June | ... | ... | ... | ... |
| July | ... | ... | ... | ... |
| August | ... | 6 | ... | 6 |
| September | ... | 23 | ... | 23 |
| October | ... | 100 | ... | 100 |
| November | 6 | 92 | ... | 98 |
| December | ... | 327 | ... | 327 |
| TOTAL | 160 | 654 | 244 | 1,058 |

*C. Small-pox.*—3,359 cases and 1,141 deaths were reported from this disease chiefly from Bhopal and Bundelkhand.

*D. Influenza.*—The serious epidemic of 1918 was carried over into the early months of 1919 and 99,369 deaths were reported of which 95,866 occurred in Gwalior and 3,416 in Bhopal. It was again reported in the autumn in mild form and the places affected were :—

Baghelkhand, Bundelkhand, Southern States Agency and Indore Residency.

Practically no mortality was reported from influenza in the autumn.

| | Deaths. |
|---|---|
| Gwalior State | 95,866 |
| Baghelkhand Agency | 38 |
| Bundelkhand Agency | 21 |
| Bhopal Agency | 3,416 |
| Southern States Agency | 28 |

## VII.—LUNATICS AND LEPERS.

The only lunatic asylum in Central India is that in Indore City. It has accommodation for 12 patients.

There is accommodation for lepers in four asylums, namely Indore City, Sehore, Ujjain and Dhar. The asylum at Sehore is maintained by the Bhopal Durbar under the supervision of the Agency Surgeon and the up-keep of the other three is met by the Durbars concerned.

The following table gives the numbers treated and the cost :—

| Place. | Average number of inmates. | Cost per inmate per annum. |
|---|---|---|
| | | Rs. A. P. |
| Bhopal (Sehore) | 29·7 | 152 8 11 |
| Gwalior (Ujjain) | 36 | Not furnished. |
| Indore | 15 | 96 7 0 |
| Dhar | 8 | 149 11 6 |

## VIII.—Jails.

Returns were received from 38 jails against 32 in 1918. The following table shows the population and death-rate in the seven large jails:—

| | Average population. | Number of deaths. | Rate per mile. |
|---|---|---|---|
| 1. Lashkar | 1107·5 | 65 | 58·6 |
| 2. Indore State Central Jail | 319·22 | 18 | 56·4 |
| 3. Bhopal State Central Jail | 310·89 | 18 | 57·8 |
| 4. Rewa Central Jail | 302 | 15 | 49·6 |
| 5. Central India Agency Government Jail, Indore | 149·99 | 1 | 6·6 |
| 6. Bhairongarh (Gwalior) Central Jail | 195 | 7 | 35·8 |
| 7. Nowgong District Jail (Government) | 70·40 | 2 | ... |

The death-rates per mille for the past three years were as shown in the following statement:—

| | 1917. | 1918. | 1919. |
|---|---|---|---|
| 1. Lashkar | 26·40 | 19·1 | 58·6 |

## IX.—The Victoria Memorial Scholarship Fund.

Under the auspices of this fund dhais are trained at Indore, Gwalior, Ujjain and Bhopal where the number of pupils trained and the total expenditure incurred are as follows:—

| Place. | Pupils. | Total expenditure during the year. | Cost per pupil. |
|---|---|---|---|
| | | Rs. A. P. | Rs. A. P. |
| Indore King Edward Hospital | 17 | 1,387 11 6 | 81 10 1 |
| Gwalior | 17 | Not furnished. | |
| Ujjain | 6 | Ditto. | |
| Bhopal | 6 | 277 15 4 | 46 5 3 |

## X.—The King Edward Hospital Medical School, Indore.

The number of students in the school on the 1st of January 1919 was 143, of whom 23 passed the final L. C. P. and S. examination (Bombay) after completing the course and one passed the L. M. P. examination at Nagpur and one was dismissed.

In addition to those who passed 19 other students studied up to the final and failed. Under the rules of the college, they are permitted to re-appear without undergoing further instructions, and hence 11 of them have left the school. During the year 32 new students were admitted, leaving 139 on 31st December 1919.

| | |
|---|---|
| Fourth-year students | 46 |
| Third-year students | 42 |
| Second-year students | 18 |
| First-year students | 33 |
| Total | 139 |

Their origin is as below:—

| | |
|---|---|
| Central India State-Scholars | 48 |
| Rajputana States-Scholars | 24 |
| Government-Scholars | 4 |
| Kashmir State-Scholars | 4 |
| Private students | 59 |
| Total | 139 |

## XI.—War Hospitals.

All the war hospitals have been closed.

C. B. McCONAGHY, *Major, I.M.S.*,
*Administrative Medical Officer in Central India.*

## STATEMENT A.

*Showing the number of dispensaries in the Central India Agency during the year 1919. Population of the province 9,356,980.*

| Class of dispensary. | Number open on 31st December. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I.—State—Public . . | 6 | ... | ... | 6 | |
| II.—State—Special . . | 239 | 8 | 4 | 243 | |
| (*i*) Police . . . | 1 | ... | ... | 1 | |
| (*ii*) Forests and Surveys | ... | ... | ... | ... | |
| (*iii*) Canals . . | ... | ... | ... | ... | |
| (*iv*) Others . . | ... | ... | ... | ... | |
| III.—Local Fund . . | 2 | ... | ... | 2 | |
| IV.—Private aided . . | ... | ... | ... | ... | |
| V.—Private non-aided . | 8 | ... | ... | 8 | |
| VI.—Railway . . . | 8 | ... | ... | 8 | |
| Total . | 264 | 8 | 4 | 268 | |

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State railways or others.

---

Notes.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.
